

Dining hall	<p>Class 2 reported that the custard had been lumpy sometimes in the dining hall. SC were generally concerned about children not clearing up well enough after they had eaten. SC had a long discussion about how this could be improved. The following suggestions were explored:</p> <ul style="list-style-type: none"> - Asking staff to stop cleaning up because it is making children lazy. - Having cloths and cleaning materials for children to use - Having lunchtime monitors to clean and wash up - Having a washing up area so that all children have to wash their own plates and dishes. 	<p>SC Rep to talk to classes about cleanliness in the dining hall and as for their ideas.</p> <p>Trial of lunchtime monitors</p>
Ideas	<p>SC reps reminded Mr Wilson about the agreement to have teddies in each class which could be taken away in the holidays to support learning about the world. Children could be asked to take the teddy on holiday and bring back photos and information about the things the teddy 'enjoyed!' Edie informed SC that her mum worked for Jelly Cat.</p> <p>SC requested a talent show. Mr Wilson informed SC that one was already being arranged by Ms Harris and Toby in Playcentre. Children discussed doing the adult for a day project or an activity which involved teaching or supporting the younger children.</p>	<p>Edie to ask her mum if Jelly Cat will donate 8 teddies</p> <p>Teacher to discuss possible ideas</p>
Successes	<p>SC in Class 1 reported that their resources were really well organised. They also stated that books around the school were really useful and some people were really enjoying gardening club. SC asked for more stationary in the classroom. Some classes reported not having enough green pens or enough glue sticks. Mr Wilson informed SC that lots of resources were in school and that he would remind teachers they are free to use them when they get low in the classroom.</p> <p>Several reps reported that SC's decision to allow sandals in the summer term had been a great success</p> <p>One rep asked if swimming could be reintroduced in Year 5 and 6. Mr Wilson said no because limiting swimming gave more opportunities for other sports and now people have longer in the pool, almost everyone can swim.</p>	<p>Teachers to be reminded that there are plenty of glue in the resource room.</p>

<p>Problems</p>	<p>Children had reported that they were thirsty in lessons sometimes and would like to have the option of having a water bottle on tables</p> <p>SC had a discussion about classes being punished if someone does something wrong. SC agreed that it was unfair for a whole class to be punished for one person doing something wrong. Mr Wilson reminded councillors that it was okay for the class to be rewarded for the behaviour of an individual though as that helped with team work.</p> <p>Some reps reported that girls don't get a fair chance to play table tennis. SC suggested having a girl's only day as a trial. SC agreed that this would help everyone to understand that both girls and boys should have the chance to play table tennis. Some reps were concerned that one or two children were getting a little cross and silly when they lost a game. SC agreed that the Chair and Secretary would talk to assembly about this on Monday.</p> <p>There was some discussion about having salt on the dinner table. Mr Wilson informed SC that this was not allowed.</p>	<p>Mr Wilson to talk to teachers about water.</p> <p>Chair to talk about table tennis on Monday</p>
