

French Home Learning – Week beginning 11th May

Years 3 & 4

French is spoken in lots of countries around the world. Pick a francophone (French-speaking) country other than France and create a fact file about that country.

Make sure to include at least the following information:

capital city / surrounding countries / terrain or landscape / other languages spoken / population / currency

You could also include information about one or more aspects of the country's culture, for example food, music, art or sport!

You can choose how you would like to present your fact file, for example as a booklet, poster, or Google slides presentation. Here are some examples of resources you can use:

- https://en.wikipedia.org/wiki/List_of_territorial_entities_where_French_is_an_official_language
- <https://kids.britannica.com/kids>

En plus : what does the country's flag look like? You could do a drawing, collage or painting of the flag.

When you've finished it why don't you share it on Google Classroom or email it to me: ighui@sirjohncassprimary.org

Have a good week!

Mme Ghui
