### SECTION 4
- Guide to applying online 64
- Secondary schools and registered independent secondary schools in Tower Hamlets 68
- Priority geographical areas for secondary transfer application 69
- Useful contacts 70

Apply online at www.towerhamlets.gov.uk/schooladmissions 3
Dear parent or carer

Transferring to a secondary school is an exciting and significant time for your child in his or her school career; it can also be a time when both pupils and their parents/carers need support, advice and information.

As a family, you will want to know as much as possible about secondary schools in Tower Hamlets, to help you make the right choice. This guide will take you through the process of applying for a place for your child. It provides information about all state-maintained secondary schools in the borough, including contact details and maps showing where each school is located.

Throughout the guide, we have tried to answer many of the most frequently asked questions, as well as offering advice on how to help your child settle into his or her new school and to continue to learn well.

But this is just the start. It is very important that both you and your son or daughter visit your preferred schools to see them first-hand for yourselves. This guide lists organised visiting times for all schools when you will be able to meet staff and pupils and see the facilities on offer. I hope you will accept the invitation from the schools to visit and use the opportunity to discuss any issues about your child’s future learning.

Over 94% of secondary pupils attend a school judged Good or Outstanding by Ofsted, which puts school performance in the top 15% nationally. 2018 GCSE results in Tower Hamlets were above the England average in Attainment 8, in Progress 8, in Grade 5 English and Maths combined and the EBacc (English Baccalaureate). All Tower Hamlets schools are committed to providing a broad and balanced curriculum so your child will benefit from a rich educational offer which makes use of the many and diverse opportunities provided through businesses, arts and other organisations.

In addition, we have completed a long-term capital investment programme in the region of £300 million, which has transformed the environment of secondary and special schools across the borough and built bright, up-to-date places for pupils to learn and thrive. This capital investment is ensuring that all of our secondary schools offer very good accommodation to enhance the learning environment.

For more information about any of the schools in this booklet, call our admissions officers on 020 7364 5006.

We look forward to your child joining one of our secondary schools and experiencing quality teaching in a friendly and supportive environment.

Yours sincerely

Debbie Jones
Corporate Director, Children’s Services
Tower Hamlets Council

  to schools that still have places remaining

- **April, May and June 2020**
  Appeals heard for Tower Hamlets secondary schools

- **September 2020**
  Your child starts secondary school
Apply online at www.towerhamlets.gov.uk/schooladmissions

If you live in Tower Hamlets you need to apply using the online application form. You can apply between 1 September and 31 October 2019 at www.towerhamlets.gov.uk/schooladmissions or www.eadmissions.org.uk

It is a simple and easy way to submit your child’s secondary transfer application. You will then be able to:

• Search for schools in Tower Hamlets and across London
• Access information about schools and links to school websites
• Make changes to your application up until the closing date 31 October 2019
• Receive notification of the outcome of your application by email.

We strongly recommend that you submit your application online by Friday 18 October 2019 (the week before half term) in case you forget your password or username or lose internet access for any reason.

How do I get started?
You will need an email address. You can register for a free email account with a number of providers.

I have an email address, what next?
Visit www.eadmissions.org.uk to register or you can use the link from the Tower Hamlets website at www.towerhamlets.gov.uk/schooladmissions

Who can help me with my online application?
• Guidance on how to apply online is in this booklet – see page 64.
• The Pupil Services team can offer advice and answer any questions on 020 7364 5006.
• If you require one-to-one support to complete your online application, please visit one of the council’s Idea Stores on any of the dates listed below. No appointment is necessary – just come along and an officer from Pupil Services will help you.

Secondary transfer parents’ session

There will be an information and advice session for parents at the Professional Development Centre (PDC) 229 Bethnal Green Road London E2 6AB:

Thursday 12 September 2019 from 4pm-6pm (please arrive at 4pm)

Get information and advice about primary to secondary school transfer as well as meeting staff from the local authority’s Pupil Services and Parental Advice Service teams.
Children with education health and care (EHC) plans

Tower Hamlets aims to offer every child a place in a local mainstream school.

The arrangements for the admission of children with education, health and care (EHC) plans are different from those for children without plans. The parents/carer of children with EHC plans have the right in law to request that a particular school, (mainstream or special) is named in their child's plan.

However, the placement must be:
• suitable for the child's age, ability, aptitude and special educational needs; and
• compatible with the efficient education of the other children with whom the child would be educated or the efficient use of the local authority's resources.

Transfer to secondary school is a key item for discussion at the year 5 annual review, so that parents/carers have sufficient time to consider the type of provision they would prefer and to visit suitable schools.

Parents and carers are advised, when visiting secondary schools, to carefully consider whether their preferred schools are appropriate for their child's needs, particularly if requesting a place in a school in another local authority.

The Family Information, Advice and Support Service (formerly Parents Advice Centre) invites parents and carers to a meeting in the summer term of year 5 to learn about the arrangements for transfer, to discuss general issues and concerns, and ask questions about secondary transfer. This meeting is attended by a representative from the Special Educational Needs (SEN) team who will give advice and information and answer parents’ questions. Parents and carers who cannot attend are still welcome to contact the Family Information, Advice and Support Service (formerly Parents Advice Centre) or SEN team for advice and information.

In September, at the start of year 6, Tower Hamlets parents and carers receive the secondary transfer application pack.

For pupils with EHC plans, the application pack contains:
• A covering letter explaining the transfer process
• The secondary transfer booklet
• A form on which parents/carers can express their preference for up to three schools

Help with completing the form is available from the primary school, the SEN team on 020 7364 4880 or the Family Information, Advice and Support Service (formerly Parents Advice Centre) on 020 7364 6489.

The form should be returned to the SEN section at Mulberry Place no later than 31 October 2019. It may not be possible to consider forms received after that date.

Please note you must not make an online application if your child has an EHC plan.

In order to make the secondary transfer process as fair as possible, all requests for secondary schools for children with EHC plans will be considered at the Special Educational Needs Secondary Transfer Panel, which is held in November each year.

The panel will make every effort to comply with parents’ and carers’ wishes in naming their preferred school, although it cannot be guaranteed that it will be approved. Consideration will be given to selecting the second or third preference school if the first choice cannot be approved. If only one school is requested and is not agreed, a place will be allocated at the nearest suitable school by the panel.

There are a number of travel assistance options available to children with EHC plans that support a safe and supportive journey to and from school. Children referred for travel assistance will be assessed to evaluate and decide which type of travel assistance support, if any is most appropriate.

It is not an automatic right that all children with an EHC plan will receive travel assistance; this includes but is not exclusive to children attending secondary school, and children who attend schools outside of the borough.

Parents and carers whose children have EHC plans may appeal to the First-Tier Tribunal (Special Educational Needs and Disability) if the local authority does not comply with their request.

For advice on secondary transfer for pupils with EHC plans, contact the SEN team on 020 7364 4880.

Visiting schools
The first thing you should do before deciding on which schools to apply for is to visit as many as possible. It is important to find out as much as you can about them. The information given in this booklet is only a guide and it will be difficult to reach a decision until you have visited the schools and met the students and staff. The visiting times for the schools can be found on page 5. You can also watch the video guide which accompanies this booklet at www.towerhamlets.gov.uk/secondaryadmissions.

The application procedure (Tower Hamlets residents only)
At the beginning of September, Tower Hamlets schools will give the secondary transfer application pack to Tower Hamlets parents. The application pack will contain:

- The Ready for Secondary School in Tower Hamlets booklet
- Notification of the child’s band (see page 15)

Tower Hamlets parents whose children attend primary schools outside the borough will receive their application pack from the council’s Pupil Services team directly. If your child has a statement of special educational needs or an educational, health and care plan, please read the information on page 8.

If your child is home educated or at an independent primary school, you can obtain an application pack from Pupil Services on 020 7364 5006.

Tower Hamlets residents applying to schools outside of the borough
If you wish to apply to schools outside Tower Hamlets you must check with the local authority or schools concerned as to whether you will need to complete any supplementary forms. Individual schools can provide you with admission policies, which you should read. It is also advisable to contact the local authority for a copy of their admissions brochure. It is your responsibility to provide all the information that a school needs.

Non-Tower Hamlets residents
If you do not live in Tower Hamlets, you must apply online following the instructions issued by your home borough. The contact details for the school admission teams in neighbouring boroughs are on page 70.

If you are applying to any of the Tower Hamlets schools that use the council’s admission policy, you must also complete the Tower Hamlets supplementary form, available from Pupil Services. The supplementary form provides additional information that we require. Failure to complete this form may mean that your application is given a lesser priority under the council’s admission policy. This could therefore result in your child not being offered a place.

Additional forms for, Sir John Cass, Bishop Challoner and Canary Wharf College Crossharbour
All parents wishing to apply to, Sir John Cass, Bishop Challoner Federation of Schools or Canary Wharf College Crossharbour will also need to complete a supplementary form, which you must obtain and return directly to these schools. If parents do not complete a supplementary form it may affect the outcome of the application.

Completing your application
You should apply online by visiting www.towerhamlets.gov.uk/schooladmissions or www.eadmissions.org.uk. Please then follow the steps set out in the online application guide on page 64.

You should name up to six schools in order of preference on your application form. This will maximise the possibility of your child being offered a school you would like them to go to.

If you need help and advice when completing your application, you can call Pupil Services for assistance on 020 7364 5006. We have arranged a number of sessions across the borough in Idea Stores to help parents complete their application. See page 7 for further information.

The online system is available 24 hours a day, seven days a week, up until midnight on the closing date of Thursday 31 October 2019. However, we encourage applicants to submit their application by no later than Friday 18 October 2019 (the Friday before half term) as this will allow sufficient time for checking.

Medical and social reasons
If there are special medical or social reasons that you wish to give in support of your application, you must state this in your online application explaining why your preferred school is the most suitable and the difficulties that would result if your child had to attend another school. These reasons can include factors affecting your child, yourself and other family members. They must be supported in writing by a professional such as a doctor or social worker and submitted with your application. You can attach your supporting documents with your online application. Just submit the application first, then click on the ‘attach document’ button to add the further information.

Changing your choices
If you want to change the schools that you are applying to in any way (your preferences or choices), you can do so online up until midnight on 31 October 2019.

Late applications
If you wish to apply or make changes after 31 October 2019 you must call the Pupil Services team on 020 7364 5006. Your application or changes may not be considered until April 2020, after the decisions have been taken for those applications that were received on time. However, if there is an unavoidable reason for your application being late, for example your family has only just arrived in Tower Hamlets, we may make an exception to this rule and, where possible, treat your application as though it was received on time.
A step-by-step guide to secondary transfer

Please note that if you are applying to schools in other boroughs they may have different arrangements.

Notifying parents of the results of their applications
On 2 March 2020, Pupil Services will send parents a letter notifying them of the highest ranked school that is able to offer a place. If an application for a higher ranked school is unsuccessful, the letter will tell parents how they can appeal against the decision to refuse a place. Lower ranked offers will be cancelled or withdrawn.

Parents may also receive letters from voluntary aided and academy schools explaining why the application was refused or an offer of a place was not made. If you receive an offer of a place at a non-Tower Hamlets school, you will be asked to return a reply slip confirming your acceptance of the place. You must return the slip by the date stated in the letter.

Waiting lists
If your child has not been offered a place at one of your preferred schools, they will remain on the waiting lists for these schools until the end of the autumn term (December). If you still wish to remain on the waiting list after December, you must complete an in-year transfer form, which is available from Pupil Services. Please note that transfers take place at the beginning of every term and half term. You can view the timetable in the guidance notes that accompany the in-year transfer form on the council’s website.

For Bishop Challoner, Canary Wharf College Crossharbour, London Enterprise Academy, Raine’s, Sir John Cass and Wapping High School, please follow the advice in the letter from the school.

Parents without the offer of a school place can also contact Pupil Services and ask for their child’s name to be placed on waiting lists for other Tower Hamlets schools they did not apply to originally.

Special notice
Please note that Stepney Green Maths, Computing and Science College changed from a boys’ school to a co-educational (boys and girls) school from September 2019. During the first five years of its transition a special exemption is being applied for, which will have the following impact on admissions at Year 7 as follows:

In the event of the Academy being oversubscribed the 190 spaces will be divided equally between boys and girls. This means that no more than 95 boys and 95 girls will be offered places. This exemption could mean that some children will be refused a place, because there are more applications than the 95 places available for their gender. However, after 2 March (offer day), if places become available they will be filled regardless of gender. This arrangement only applies to applications for Year 7 entry in September. It will continue for each Year 7 entry up to and until September 2023. Thereafter, Stepney Green School’s admissions will continue without special regard to maintaining an equal balance of gender.

The Pan London Coordinated Admissions System

Tower Hamlets Council, along with the 32 other London boroughs and councils that border the capital, is part of the Pan London Coordinated Admissions Scheme, which coordinates admissions to secondary schools across London.

The aim of the scheme is that as many parents as possible receive an offer at one of their preferred schools – it also ensures everyone is notified of their offer on the same date. For the 2019/20 academic year, this is Monday 2 March 2020. This helps to make sure that no-one receives more than one offer.

How does the scheme work?
Parents list the schools that they want to apply to on one form, ranking them in order of preference. The school they most want should be listed first, followed by the next one they prefer and so on. This is important because only one offer is made and it will be from the highest ranked school (by parents’ preference) that is able to make an offer. The form must then be returned to the council for the borough in which the child lives for processing.

The councils that take part in the Pan London Coordinated Admissions Scheme use a computerised system to share the details of applications. They will then coordinate the offers of places to try to make sure that nobody gets offered more than one school place. The decision on whether a school place can be offered is made by the admission authority for the school.

Where there are more applications than there are places available, the school’s published oversubscription criteria is used to decide which applicants can be offered places. Any other schools applied to remain confidential before the decisions are made.

Councils hold the offer for the highest preference on the parent’s form where a place can be offered and release all other lower preferences, so that these can be offered to others. Potential offers are then exchanged between councils until they are in a position to make the single best offer to parents using all available places.

Apply online at www.towerhamlets.gov.uk/schooladmissions
Firstly, children with a statement of special educational need or an education, health and care (EHC) plan must be offered a place at their preferred school, unless there are particular reasons why the local authority is unable to do so (see note 1). The place will be provided in the appropriate band.

A quarter of the total places available at the outlined schools are allocated to each of the four bands. If any of these are oversubscribed in any band, the admission criteria below will be used (in descending order of priority) to allocate places.

1. Children looked after by the local authority, previously looked after children who have left care under a special arrangement (residence) or special guardianship order, or those adopted from local authority care (see note 2).

2. Pupils who have a strong medical or social reason to attend the school applied to. This can include the parents’, carers’ or other family members’ medical conditions and the family’s social needs. Parents must complete the relevant section on the application form and attach medical and/or social reports from a suitable professional (e.g. a doctor or social worker) to support the application (see note 3).

3. Pupils living nearest the school who are the first born of their sex in the case of a single sex school, or the eldest child in the case of a mixed school. The number of children admitted under this category will reflect 25% of the intake of the school in each band.

4. Pupils who have a brother or sister at the school at the time of application and/ or the child of the parent/carer’s partner, and in every case, the child should be living in the same family unit at the same address. The address used should be the one that the child usually lives at and attends school from.

5. A child whose parent is a member of staff and has been employed at the school concerned for two or more years at the time of application and/or children of a member of staff who has been recruited to fill a vacancy for which there is a demonstrable skill shortage (see note 4).

6. Pupils who live nearest to the school by the shortest walking route (see note 5).

In categories 3, 4 and 6 above, a higher priority will be given to pupils who live in the priority zones of south Wapping or west Bethnal Green applying to one of the designated schools (see the priority zone section for more information).

### Priority zone

The south Wapping priority zone is in the area south of Cable Street and Royal Mint Street, west of Butcher Row, north of the Thames and east of Mansell Street and Tower Bridge Approach. Children living in this area will have priority for admission to the designated schools, which are Mulberry School for Girls and Stepney Green Maths, Computing and Science College.

The west Bethnal Green priority zone is the area south of Quaker Street, west of Brick Lane, north of Whitechapel High Street and east of Middlesex Street. Children living in this area will have priority for admission to the designated school, which is Swanlea.

### Exceptional medical or social reasons

Where there is a very strong medical or social reason for attending a particular school, priority may be given for admission. Parents must complete the relevant section on the online application and attach medical and/or social reports signed by a doctor or social worker to their application. These reports must be received by 31 October 2019 – a reminder will not be issued. The application will be considered by the Primary to Secondary Transfer Committee.

### Confirmation of address

Applications should be submitted according to where the child normally resides. This will normally be with an adult or adults who have legal responsibility for the child.

Where the child lives at the property for part of the week with different adults who have legal responsibility, the address where the child spends the majority of the week will normally be used. If time is spent between two homes equally, the parents/carers must agree the address to be used and a single application should then be made. This will commonly be where child benefit is payable, however all evidence will be taken into account.
Parents will be required to provide acceptable independent proof of their child’s address. They must make sure that the application form they complete is accurate and must contact Pupil Services and tell their child’s headteacher if there is a relevant change after it has been submitted. Places may be withdrawn if false information is entered on the application form. Parents who do not provide evidence of their child’s address as requested, or provide conflicting or inconclusive information, may have the place withdrawn even if it has already been accepted.

Applicants living overseas may only submit an application if they have an address within the local authority area, and documentary evidence can be supplied to show they will return to the address prior to the September in the year of entry. This address must not be that of a friend, relative or other address of convenience.

For families of UK service personnel with a confirmed posting in Tower Hamlets, or crown servants returning from overseas to live within the borough, an address in Tower Hamlets will be used for admission purposes in advance of arrival in the UK. This is provided that the application is accompanied by an official letter (i.e. from the Ministry of Defence or Foreign and Commonwealth Office), which declares a relocation date and a unit postal address.

**Siblings in the same year group transferring**

Where two or more siblings are in the same year group (e.g. twins) and it’s the parent’s wish that they should attend the same school, if one sibling can be offered a place, the other will automatically be offered a place to ensure they’re not separated.

**Changing preferences**

Parents and carers may not change their preferences unless there is a genuine reason for doing so, for example a change of address. Requests to change preferences must be made in writing, giving the full reasons.

**The admission policies for the Bishop Challoner Federation of Schools, Canary Wharf College Crossharbour, London Enterprise Academy, Raine’s Foundation, Sir John Cass Foundation and Redcoat, St Paul’s Way Trust, Wapping High School**

The admission policies for these schools are available on their websites or at [www.towerhamlets.gov.uk/schooladmissions](http://www.towerhamlets.gov.uk/schooladmissions). If you are not sure about your child’s claim to a place at one of these schools, on religious or other grounds, read the admission criteria and check with the school before applying. Please remember that, where necessary, it is your responsibility to complete a supplementary form for these schools and to return it to them with all of the information requested by the closing date. If you don’t, your application will not be fully considered and this could affect the decision.

**Applying for school places at sixth form (years 12 and 13)**

Most schools in Tower Hamlets have a sixth form. The individual school pages in this booklet will include information about the sixth form and the section with the school’s contact details has a website address where its sixth form admissions policy can be viewed.

Individual schools take decisions on sixth form admission. Their policies will therefore include: a timetable with a closing date for the receipt of applications; separate admission numbers for internal and external applicants; and course entry criteria that apply to both internal and external applicants.

Similar to the admissions arrangements for entry to year 7, looked-after children and previously looked-after children are given the highest priority for sixth form admission, provided they meet the school’s course entry criteria.

When deciding on admission to the sixth form, a school will not take account of a pupil’s previous behaviour, attitude or attendance record. Any meetings held to discuss suitable options and courses will not form part of the school’s decision making process.

If you wish to appeal against a decision to refuse your child admission to a Tower Hamlets school’s sixth form, you can obtain an appeal form from: Pupil Services, Tower Hamlets Children’s Services, Town Hall, Mulberry Place, 5 Clove Crescent, E14 2BG. Tel: 020 7364 5006

**Admission of children outside their normal age group**

Children in Tower Hamlets transfer from primary to secondary school when they are 11 years old. The local authority would therefore expect a child to start secondary school in year 7, which is the normal age group for an 11-year-old starting secondary school. However, it is also acknowledged that there may be an exceptional reason for a child to start secondary school outside of the normal age group. This could be for a child to transfer early, at the end of year 5, or for a child to remain an additional year at primary school when they reach the end of year 6.

If you are a parent of a child who you think needs to start secondary school outside of their normal year group, please write to Pupil Services by 31 October 2019. Your letter should clearly explain the exceptional reasons for your request and you must also include up-to-date advice from an appropriate education professional.

Your request will be considered by the local authority’s service head for learning and achievement. The service head will also seek the views of your child’s primary school and its education psychologist, before deciding whether or not your child’s needs can be met within the current year group. You will be notified of the decision in writing.

You must also submit a secondary school application by the 31 October 2019 closing date. Where it is agreed that your child can transfer early, your secondary school application will then be considered separately, according to the school(s) admission criteria. There is no guarantee that your child will be offered a place at your preferred school(s).
Does your child have a statement of special educational needs or an education, health and care plan?

Please contact the Special Educational Needs team on 020 7364 4462.

**Children looked after:** Is your child looked after by a local authority or was adopted (or made subject to a child arrangements or special guardianship orders) immediately after being looked after? See page 12 for a full definition.

Your application will be considered under this criterion and will have the highest priority. Please provide a letter from your child's social worker to confirm that your child is or was looked after.

**Medical/Social:** Does your child, or any other family member, have a strong medical or social need to attend a specific school? If yes then please provide:
- professional evidence (eg from a doctor or educational psychologist) and
- an explanation outlining why this is the only school that can meet your child's needs

See page 12 for a full definition.

Your application will be considered under this criterion, which has priority over applications considered under criteria 3 and 4.

**First born:** Is your child:
- eldest in the family? eldest girl? eldest boy?

Pupils living nearest the school who are the first born of their sex, in the case of a single sex school, or the eldest child in the case of a mixed school.

See page 12 for a full definition.

Your application will be considered under this criterion. The closest 25% of First Born pupils in each Band will have priority over applications considered under criteria 4 and 5.

**Siblings:** Does your child have a brother or sister at the school at the time of admission September 2020? See page 12 and 13 for a full definition.

Your application will be considered under this criterion which has priority over applications considered under criterion 5.

**Children of staff:** Are you a member of staff who has been employed at the school you are applying to for two or more years at the time of application and/or are you a member of staff who has been recruited to fill a vacancy for which there is a demonstrable skill shortage?

See page 12 for a full definition.

Your application will be considered under this criterion which has priority over applications considered under criterion 6.

**Distance:** All remaining applications will be considered under the distance criterion, with priority given to those children living closest to the school. See page 12 for an explanation of how we measure distances.
Questions and answers on moving to secondary school

What is banding?

Tower Hamlets has a policy of banding to try to ensure that its schools take in an even balance of pupils from a range of abilities. All of the borough’s community schools use banding. This includes Central Foundation, George Green’s, London Enterprise Academy, Mulberry Academy Shoreditch, Mulberry School for Girls, Raine’s Foundation, St Paul’s Way Trust, Sir John Cass and Stepney Green Maths, Computing and Science College.

The band for a pupil attending a Tower Hamlets primary school is determined from the National Foundation for Education Research (NFER) test for reading and mathematics taken in summer term of year 5. The results of the tests are used to place a child in one of four bands ranging from A to D. D is the highest scoring band.

For pupils applying from primary schools outside of Tower Hamlets, we will determine the band by asking parents to seek a teacher assessment from their child’s primary school.

How will I be notified about the outcome of my application?

Notification of the outcome of your online application will be made by email. Emails will be sent from the evening of 2 March 2020. Parents/carers will also be notified by letter, which will be sent on 2 March 2020.

What if I apply late?

If you apply after 31 October 2019 your application may not be considered until April 2020. However, if it is agreed that there is a good reason for your application being late, consideration will be given and an exception to this rule may be made.

How do I appeal?

The notification letter will give you information about appeal procedures. If you live in Tower Hamlets and you are refused a place at a Tower Hamlets school that uses the council’s admission policy, you will receive an appeal form with your letter. If you don’t live in the borough you can request an appeal form from Pupil Services.

When making your appeal, please state your reasons clearly, otherwise it may not be considered. For schools outside Tower Hamlets, you should immediately contact the relevant local authority for details of the appeal arrangements. You must do this straight away to make sure you do not miss the appeal closing date.

When will my appeal be heard?

Appeal panels are independent of schools and admission authorities. They sit during the summer term and you should know their decision before your child starts school in September. At the time of going to press, 403 appeals had been heard for the 2019 secondary transfer admissions and 22 were successful.

Are places reserved for appeals?

No. Places that become available before appeals have been heard will be filled periodically from the waiting list. If an appeal is successful, the school must offer a place to the child concerned causing the number of children to be admitted to exceed the planned admission figure. No further places will be offered until the number of children to be admitted drops beneath this figure again.

Further appeals

The decision of the appeal panel is final. A fresh appeal can be made where a new application is unsuccessful. However, new applications in the same academic year will only be allowed where there has been a relevant change of circumstances since the original decision.

Do all schools keep waiting lists?

Waiting lists are held for the Tower Hamlets schools that use the council’s admission policy. From March to September, there is a waiting list for each band. All schools must keep a waiting list until the end of the autumn term, (December) at least. If you are refused a place at a voluntary aided school or a school in another borough, you will have to check if they will keep the waiting lists any longer than this.

How are the waiting lists kept?

Pupil Services will maintain the waiting lists for Tower Hamlets community schools. This includes Mulberry Academy Shoreditch, Central Foundation Girls’, George Green’s, Mulberry School for Girls, St Paul’s Way Trust and Stepney Green Maths, Computing and Science College.

If your child has not been offered a place at one of your preferred schools, they will remain on the waiting lists for these schools until the end of the autumn term (December). You will then need to reapply to remain on the waiting list after December. See note on page 11.

There will be separate waiting lists for each band - late applicants will be added to these. Until September 2020 the waiting lists for each band will be kept in the following descending order of priority:

1. Children with a brother or sister in the school at the time of admission.
2. Children living nearest the school. If a vacancy arises, it will be offered to the first applicant on the waiting list for that band. If a school cannot fill all the places available in a particular band, places will be filled by applicants from adjoining bands.
Questions and answers on moving to secondary school

From September 2020, the waiting lists are combined into one list, disregarding the bands. The order of priority for the waiting list will then be:
1. Children looked after by the local authority, previously looked after children who left care under a residence or special guardianship order, or those adopted from local authority care.
2. Children without a school place.
3. Children with a brother or sister in the school.
4. Children whose parents are members of staff.
5. Children living nearest the school.

Proximity to the school will determine priority where there are competing claims to a place.

What happens if I haven’t got a place in a school of my choice?

You have a legal duty to ensure that your child receives an education. A place will be reserved for your child at the nearest school to you that still has a vacancy. You should take up the place reserved or contact Pupil Services to ask about vacancies in other schools.

Where can I go for more advice?

You can contact Pupil Services or visit the office in working hours. A Bengali and Sylheti speaking member of staff is available upon request.

Pupil Services
Mulbery Place, 5 Clove Crescent, E14 2BG
Tel: 020 7364 5006

The Family Information, Advice and Support Service (formerly Parents Advice Centre) offers a range of services to parents and carers and young people including:
- expert information advice and support for parents of children with special educational needs
- explaining the admissions process and supporting parents in completing online applications
- supporting families with managed moves, exclusions and appeals.

Tower Hamlets Family Information, Advice and Support Service (formally Parent Advice Centre)
Greatorex Street, E1 5NP
Tel: 020 7364 6489

Before you apply:

DO:

✓ Visit schools – this is the best way to get a feel for the school. You can meet staff, ask questions and see the school in action. Visiting dates are on page 5 and available on each school’s details page.

✓ Think about what is right for your child – don’t rely on what others tell you, visit the school and see for yourself.

✓ Talk to your child – involve them as much as you can.

✓ Think about the journey – how easy will it be to get to the school?

✓ Check the admissions criteria and how likely it is that your child would be offered a place.

✓ Use all your preferences – make sure you include your most local school.

✓ Ask the pupil services team for advice.

✓ Make sure you press ‘submit’ when you finish your online application. You should receive a reference number confirming safe receipt.

DON’T:

✗ Put private (independent) fee paying schools on your application – you should apply directly to the private school.

✗ Wait until the last minute to apply – you may have problems logging in or getting online. Give yourself plenty of time to think things through.

✗ List only one school – your application won’t be treated more favourably and you could lose out on another school you like.

Our ethos is based upon our faith and emphasises kindness, duty to others and a respect for the uniqueness and dignity of all people as children of God. Every boy's aptitudes and gifts are developed within an environment that will encourage and support his spiritual, physical, moral and intellectual development. We have high expectations of all and expect all to achieve. Our young men consistently outperform boys nationally both at GCSE and at A level and we also encourage independence, resilience and personal growth through guided success on our personal development programme. When boys leave our school they do so as confident and responsible young men.

School organisation

Bishop Challoner Boys’ School is a four-form entry Catholic school. Part of a federation, we are attached to a mixed sixth form, with a partner single-sex girls’ school sharing our site. Students are taught in tutor groups in some subjects and grouped by ability in others in Key Stage 3. The make-up of these groups is reviewed on an ongoing basis to provide the educational support and challenge that is needed.

During Key Stage 3, students study the following: religious education, English, maths, science, modern foreign languages, history, geography, music, art, drama, technology, ICT and PE. This broad curriculum is refined in Key Stage 4 as students choose and prepare for post-16 courses.

The following GCSEs are among those available in the option blocks: history, geography, modern foreign languages, music, art, drama, PE, resistant materials, textiles, food technology, media, ICT, sociology and economics.

The majority of students will choose either history or geography and take a modern foreign language as well as choosing two other subjects.

In addition to GCSEs, we offer a selection of vocational courses. These are available in ICT, business, sport and media.

A similar range of A levels and vocational courses are also available in our sixth form.

We are well connected to various prestigious universities, large companies and many of our students will go on to Oxbridge / Russell Group universities. We also run an application programme for funded scholarships to Ivy League universities in the U.S.

Pastoral care

We want every child to be happy, safe and successful. While pastoral care is the responsibility of every member of staff, the head of year and the form tutor provide more individual support and deal with any emerging issues. We expanded our four forms of entry into five formgroups to ensure smaller class sizes. Smaller class sizes ensure all students are personally known and cared for. Our federation was awarded world class school status because of the excellent work we do to promote the personal development of each child.

“The school’s work to promote pupils’ personal development and welfare is good. Pupils are proud of their school. They are confident and self-assured learners. Teachers encourage pupils to develop their own ideas and to listen respectfully to the views of others.” – Ofsted

We value every member of our community and look to develop the whole person – body, spirit and mind.
We recognise Christ at the centre, (reflecting our mission statement) and have developed our pastoral care systems to support this. We have regular acts of worship, both within the school and in the attached church, and we emphasise the need for spiritual growth and enquiry as our young people prepare for their adult lives. We teach of the need to respect the self, each other and God.

“There is a wide range of support for vulnerable pupils and pupils say that they feel supported.” – Ofsted

Accommodation
Bishop Challoner is in a new £28 million, landmark building on Commercial Road, housing state-of-the-art facilities, designed to provide the best single-sex education possible.

Bishop Challoner is a wheelchair accessible school. It has three accessible lifts to all floors and ten accessible toilets, one with changing facilities. We recommend that parents of prospective pupils who might use these facilities visit the school on one of the dates set out below.

Learning support
There are several systems in place to ensure that our students are supported to achieve. They are based on the following principles:

- We ensure academic mentoring and support is available for every student if they begin to underachieve against their potential at any point in their education here.
- We ensure that support offered is evidence based, regularly reviewed and carefully explained to parents.
- We differentiate by starting with high expectations and then finding a way to support all pupils to meet these expectations.
- Teachers understand the different categories of special educational needs and disabilities (SEND) and therefore plan in a strategic and holistic way.
- Our routines and structures are SEND-friendly to ensure solid foundations from which teachers can further build in support where needed.

We believe that your child’s learning needs will first be met through the high quality teaching delivered by their subject teacher. Additional classroom and withdrawal support is available through our SEND team and where appropriate our Learning Support Centre.

Extracurricular activities/sport
There are a whole spectrum of extracurricular activities on offer to all students. Clubs range from choirs and jazz bands to cooking, coding, sport and world religions.

At Bishop Challoner, we know that sport plays an integral role in society and in the development of a young person. PE develops a wide range of competencies that help students to thrive in adult life, promoting the physical, social and mental wellbeing of a young person. We have strong links with many local clubs and actively encourage our students to participate in sport outside of school.

Sport is an area in which we excel and our boys perform at the highest level of sporting achievement. This includes our boys taking part in borough and regional teams in both football and athletics and having several young men on the national athletics teams for their age groups and in premiership club programmes.

Do come and see for yourself all that Bishop Challoner has to offer.
Bishop Challoner Catholic Girls’ School is an outstanding five-form entry Catholic school in which every child is enabled to achieve their full potential, academically, personally and spiritually.

As a Catholic school our ethos is based upon faith, kindness, duty to others and a respect for the uniqueness and dignity of all persons as children of God.

Located between Wapping and the City of London, our single-sex school is attached to a co-educational sixth form college and is part of a federation with the boys’ school. Our most recent Ofsted inspection rated the school as ‘outstanding’ in every area. We have been awarded both Leading Edge and World Class School status.

Bishop Challoner is a high-performing school where students make rapid progress. It is also a vibrant, happy place to learn. We are proud of our reputation for developing our students’ academic achievement, creativity and leadership.

“This is such a happy school with many smiling faces.”

“Students from a wide range of cultural backgrounds study and socialise together in a harmonious and convivial way.” – Ofsted

Our pastoral care is excellent and our Catholic ethos underpins this: we value all individuals equally and our small class sizes create an environment in which potential can be fully realised because each child is known, cared for and encouraged to be the best that they can be.

By the time our students leave, they are confident, capable, responsible young women, ready to play their part in the 21st-century world.

We have extensive links with universities such as Cambridge, Oxford, Imperial and Queen Mary and partnerships with local businesses such as RBS, Wells Fargo and Barclays. As a result many of our sixth formers go on to Oxbridge or Russell group universities and in some cases have gained full scholarships to prestigious Ivy League universities in the USA.

“Students’ and their parents praise the quality of teaching. Many students, of all ages, showed great enthusiasm when talking about the quality of teaching.” – Ofsted

School organisation

Students are taught in tutor groups in some subjects and grouped by ability in others in Key Stage 3; the make-up of these groups is regularly reviewed in order to provide the educational support and challenge that is needed.

During Key Stage 3 students study the following: religious education; English; maths; science; modern foreign languages; history; geography; music; dance; art; drama; technology; ICT; and PE. This broad curriculum is refined in Key Stage 4 as students choose and prepare for post-16 courses.

The following GCSEs are among those available in the option blocks: history; geography; modern foreign languages; music; art; drama; PE; resistant materials; textiles, food technology; media, ICT; sociology; and economics. The majority of students will choose either history or geography and take a modern foreign language as well as choosing two other subjects.

In addition to GCSEs we offer a selection of vocational courses. These are available in ICT, business, sport, and media.

A similar range of A levels and vocational courses are also available in our sixth form.

Learning support

There are several systems in place to ensure that our students are supported to achieve. They are based on the following principles:

• we ensure that support offered is evidence based, regularly reviewed and carefully explained to parents
• we differentiate by starting with high expectations and then finding a way to support all pupils to meet these expectations
• teachers understand the different categories of SEND and therefore plan in a strategic and holistic way

We believe that your child’s learning needs will first be met through the high quality teaching delivered by his subject teacher. Additional classroom and withdrawal support is available through our SEND team and where appropriate our Learning Support Centre.

Accommodation
Bishop Challoner is in a new £28 million, landmark building on Commercial Road, housing state-of-the-art facilities, designed to provide the best single-sex education possible. Due to our federation we have the social advantages of a small school within the outstanding facilities of a large school.

Bishop Challoner is a wheelchair accessible school. It has three accessible lifts that give access to all floors. The school has ten accessible toilets, but only one with changing facilities. We recommend that parents of prospective pupils who might use these facilities visit the school on one of the dates set out below.

Pastoral care
We want every child to be happy, safe and successful. While pastoral care is the responsibility of every member of staff, the head of year and the form tutor provide more individual support and deal with any emerging issues.

Pastoral care is the responsibility of every member of staff – we want every child to be happy, safe and successful. However those who will work most closely with each child in providing that care include their Head of Year and their Form Tutor. They are the first port of call in dealing with any issue that may affect a child at our school.

“Students’ spiritual, moral, social and cultural development is promoted exceptionally well. The school has high expectations for every student. The extensive range of experiences provided for them ensures that they develop into mature and considerate adults determined to make their mark in the world.” – Ofsted

We value every member of our Catholic community. Our school places love and respect at its heart. To support this, we look to develop the whole person – body, spirit and mind. We recognise Christ at our centre and we have developed our pastoral care systems to support this. We perform regular acts of prayer and worship, both within the school and in the attached church and we emphasise the need for spiritual growth and enquiry as our young people prepare for their adult lives. We teach all our students of the need to respect the self, each other and God.

Extracurricular activities
There are a wide range of extra-curricular activities available to all our students. Clubs take place both during lunchtime and after school and range from gospel choir, Cookery club, debating club and #girlswithgoals ambassador club.

All students have the opportunity to go on school, cultural and enrichment trips throughout the academic year.

Sport is an area in which we excel and our girls perform at the highest level of sporting achievement.

We have a number of ex-students who are now competing at the highest of levels in their respective sports, most notably GB athlete and world bronze medallist Perri Shakes-Drayton.

Do come and see for yourself all that Bishop Challoner has to offer.
Bow is a vibrant, multi-cultural school that promotes and celebrates our student’s diverse aspirations. High expectations and standards ensure that we deliver excellence for everyone.

School organisation

Transition to Bow School is supported by a dedicated team. They work alongside students, families and local primary schools to make sure new joiners have opportunities to meet their new peers and teachers, and so that we have all of the information to provide the support everyone needs.

The curriculum is designed to inspire, challenge and engage our students to develop a deep love of learning. In addition to the standard national curriculum subjects, our year 7 and 8 students study philosophy to understand the wider world. Beyond this, students partake in speaking and literacy development throughout their time with us so they can prosper academically and professionally.

Our three-year Key Stage 3 programme develops students before they select their GCSE subjects for year 10. All students are given individual advice and guidance at key transition points to ensure that they make informed choices as their curriculum becomes increasingly personalised.

Preparation for life beyond the school gates is completed in our expanding Sixth Form, where students enjoy a first class learning experience. We equip our alumni with the necessary tools to access professional careers like finance, journalism, medicine, law or engineering via top apprenticeships and universities.

We are always seeking to improve our school experience by including students. Participation is encouraged through the student council, numerous workshops and regular consultations. Students also shape our future through other leadership opportunities, with roles in many subjects as well as an elected prefect team in year 11.

We ensure that students’ have access to top quality staff who provide a platform for them to excel academically, but we also recognise that education needs to go further. We deliver unique opportunities with a range of partners to make sure ambition is encouraged and talents uncovered.

Student outcomes are improving year on year, Ofsted continues to recognise the high quality provision we offer and the learning experience beyond the classroom is expanding all the time.

Our relationship with you is crucial to creating the environment we want. Parent evenings, coffee mornings, information sessions and targeted meetings allow us to build a partnership that ensures a collaborative community. We also want you to see your child’s journey, and our website, newsletter, magazine and social media channels ensure everyone knows what is happening across the school.

Our three-year Key Stage 3 programme develops students before they select their GCSE subjects for year 10. All students are given individual advice and guidance at key transition points to ensure that they make informed choices as their curriculum becomes increasingly personalised.

Preparation for life beyond the school gates is completed in our expanding Sixth Form, where students enjoy a first class learning experience. We equip our alumni with the necessary tools to access professional careers like finance, journalism, medicine, law or engineering via top apprenticeships and universities.

We are always seeking to improve our school experience by including students. Participation is encouraged through the student council, numerous workshops and regular consultations. Students also shape our future through other leadership opportunities, with roles in many subjects as well as an elected prefect team in year 11.
Learning support

The SEND department continues to support students in lessons throughout years 7-13, and where necessary students are offered additional one-to-one support. Continuous assessment helps us to identify students who may benefit from this support.

Our learning support area is designed to cater for students who have specific needs. Students are taught in small groups so that they receive targeted, individual teaching and learning opportunities. This support extends into the classroom.

The learning support area lies at the heart of our support for students. Within this one area a wide variety of support systems and staff cater for the diverse needs of our students.

Accommodation

Students are taught in a new, modern and stimulating learning environment, including 12 science labs, seven specialist design and technology rooms, a dedicated learning space, two drama studios, a theatre, a dance studio, music rehearsal and performance spaces, and large art rooms with inspirational views of the Lea Valley and the Queen Elizabeth Olympic Park. We have a great range of sporting facilities including table tennis, netball, basketball, football, trampolines, three rooftop pitches and a fitness gym.

Pastoral care

Students’ wellbeing is as important as their academic and personal progression. Each Key Stage is overseen by the behaviour, welfare and personal development team comprised of four senior leaders. Year learning managers and form tutors provide daily pastoral support and are the first port of call for parents. Additionally, a comprehensive programme of interventions is tailored to the individual needs.

Previously boys-only, we are now a fully mixed school throughout. We provide spaces and events specifically for girls to ensure that they are well catered for. This has meant that girls at Bow School feel safe and happy and are making excellent progress.

Extracurricular activities

Students have access to a wide range of extracurricular activities that allow them to broaden their horizons and expand their skillset. The BowExtra! before and after school activity programme ensures that there’s something for everybody. From sports to arts, quiet study facilities to debating clubs, we want all students to be active beyond the classroom. Additionally, we are an accredited centre of financial literacy and enterprise education.

We partner with local, national and international organisations so that students can be active citizens in the wider world that they will enter. These partnerships enrich our curriculum and help us to prepare students for higher education and employment through mentoring programmes, educational workshops and inspirational visits and talks.

We are constantly growing our network to harness the energy, skills and experiences of others to secure more innovative, impactful and relevant learning experiences for every student.
Canary Wharf College Crossharbour has a Christian ethos and aims “To live, share and celebrate the love of learning in a Christian environment whilst welcoming those of other faiths and cultures.”

Canary Wharf College Crossharbour opened in September 2016. The Canary Wharf College Multi-Academy Trust consists of three schools: two primaries and a secondary. All 3 schools are Ofsted rated either Outstanding or Good.

“Lessons are very well planned with clear structures. Resources are very carefully designed to motivate pupils, richly engage their learning experiences and capture their interests.”
– CWC East Ferry Ofsted 2013

School organisation
The College promotes quality subject teaching by specialist staff, with particular emphasis on Maths, Science and Technology. There is a vibrant sports programme, with three hours a week of activities including sailing, swimming, rowing and kayaking. An extensive extended day programme is offered with activities such as taekwondo, computing, photography, cooking, art, pottery, netball, drama and dance.

We have an eight-year track record of success for start-up schools and offer outward bound activities, overseas volunteering and bronze, silver and gold Duke of Edinburgh Awards.

Admissions comply with the schools admissions code. If oversubscribed, first priority will be given to pupil premium children (up to 10 per cent), then children from the College primary schools. As a designated school of religious character, the remainder of the places will be offered on a 50 per cent Faith and 50 per cent Community basis.

For more information on admissions visit www.canarywharfcollege.co.uk

Learning support
• High academic expectations
• Life skills for the working world
• Maths and Technology for the future
• Genuine experiences with a number of local employers
• Nightly homework
• Design & Technology and Art specialist teaching
• Duke of Edinburgh Awards – bronze, silver & gold
• Overseas experiences
• Physical Education excellence embraced

One Parent said: “My daughter’s achievement in PE has been amazing. She is fully aware of the importance of physical activity alongside her academic lessons, to enhance her learning. A highlight was taking place in the Tower Hamlets swimming Gala and attending the Kickz football academy.”

Pastoral care
• Christian ethos permeates learning in all key stages
• Students treat each other in ways which respect British values
• Pastoral care for smooth transition
• Students of all faiths, languages and ethnic heritages welcome
• Community volunteering opportunities

“The spiritual, moral, social and cultural development of pupils is promoted very well through a wide range of activities” – Ofsted 2013

Extracurricular activities
• Wide range of extra-curricular activities
• Sport includes Kickz Football Academy, Sailing, Table-tennis, Dodgeball, Rowing, Rugby, Dance and Taekwondo
• Vertical house system enabling older and younger students to mix

One parent said: “I like the way the school makes the kids responsible and pays attention to their overall development.”

Accommodation
Students attend the school in our new, fully-equipped, interim site at Selsdon Way, E14.

Central Foundation Girls’ School has a rich educational heritage in serving local communities within the City of London. We are committed to students reaching their highest standard of achievement. We aim to transform students’ lives and challenge them to excel in their learning. Our students are valued members of the school community who are empowered to go on to academic, social and career success.

At Central Foundation Girls’ School we provide a high quality education in a safe, nurturing and caring environment. Our vision aims to:

- Transform lives through our high expectations and high standards for all
- Challenge and support each other to excel through our passion for learning
- Value all members of our community and celebrate success
- Empower ourselves to be a positive, creative, innovative and inspirational community.

School organisation

Every year, we welcome 240 Year 7 students to Central Foundation and we encourage them to continue their educational journey with us until sixth form. Our exemplary Stepping Stones programme ensures we provide a smooth transition from year 6 to year 7.

We are committed to providing a broad and balanced curriculum. We firmly believe in educating the whole child, and therefore in addition to the taught curriculum, our extra-curricular offer is exemplary. Our excellent attainment at both GCSE and A level is the result of the enriched curriculum we are able to offer our students. Our curriculum is delivered by teachers committed to providing a strong foundation in years 7-9, thus setting students up with the knowledge and skills for success in Keystages 4 and 5.

Subjects studied are: English, Maths, Science, Computer Studies, Modern Foreign Languages, Religious Studies, History, Geography, Art, Design and Technology, Citizenship, PE, the Performing Arts and Personal, Health and Economic Social Education.

In years 10 and 11 students are then equipped to study the English Baccalaureate (EBacc) made up of English, Maths, History or Geography and a Language, in addition to having access to studying a wide range of GCSE subjects or the equivalent level.

Our successful sixth form provides a range of academic and vocational courses which results in a high number of our students progressing onto higher education including the elite Russell Group universities.

Sport plays an important part in our curriculum and Central Foundation excels in borough and national competitions for athletics, netball and volleyball.

Our arts curriculum develops students’ creativity, communication skills and empathy. Performing arts, design and technology and media studies teams work in partnership with professional organisations to enrich our provision and showcase our students’ talent.

At Central Foundation our strong partnerships provide our students with greater resources and additional opportunities to grow academically and socially. As a multi-award winning school we have achieved recognition for the outstanding work that we do in the status bestowed on us as an International School, Investors in People, ICT Kite Mark, Artsmark and Healthy School. We are the first secondary school in Tower Hamlets to achieve the UN’s Rights Respecting School status.

Learning support

Central Foundation is a wholly inclusive school and we believe that every child deserves to fulfil their potential. We provide exciting opportunities and challenges for our gifted and talented students and offer personalised learning support where needed. Students with special educational needs have access to support from teaching staff and teaching assistants. The school’s Support Panel meets weekly to review
individual student’s progress and, where there is a need, put in place a support package. Students with education and health care plans are supported through an individually planned programme. In addition Learning Mentors work with targeted students.

Pastoral care

At Central Foundation we have created a nurturing community that challenges students to excel in every aspect of their lives within a supportive and extremely safe environment. Each year group has a head of year and every tutor group is supported by two tutors. Our code of conduct provides clear guidelines in terms of work, behaviour, attitude, uniform, attendance and punctuality. Students are encouraged to participate in decision making through our school council, learning ambassadors and other student leadership initiatives.

We value our parents and encourage them to be involved in the life of the school. Our home-school agreement is a partnership between students, parents and school, and is supported by a home-school support worker, a school based attendance and welfare advisor, Bengali speaking parent outreach worker and key workers for minority ethnic groups. We have an active parents’ forum and extensive parental engagement opportunities including a book club, parenting course, gardening and recreational activities. All parents have the opportunity to discuss their daughter’s progress with staff at parents’ meetings and the school’s reporting system provides parents with a termly subject progress report.

Accommodation

Our buildings are purpose built and designed to support a 21st century education. New additions include a state-of-the-art sixth form centre, science and IT wing and a sports hall with a dance studio and well-equipped gym. There is also an auditorium space capable of hosting large-scale productions and conferences.

Our expansive dining room ensures that all pupils are able to enjoy meal times together. In addition, all buildings are fully wheelchair accessible and a range of facilities exist to provide disabled students with a quality educational experience. The safety of our students is very important to us so students may not leave the school premises at lunchtime.

Extracurricular activities

Central Foundation offers a unique and extensive range of extra-curricular activities known as Central+. Students have the opportunity to undertake a range of activities including horse riding, canoeing, rock climbing dance, music and media either before or during lunch time, after school and in the holidays. Other activities include the Duke of Edinburgh Awards and residential expeditions. The library is open before and after school for students to use.

We have a dedicated Learning Lounge for KS3 students to receive support and tutoring after school, with similar provision in place for Year 10 and 11 students in our KS4 Learning Hub. Our sixth formers have their own designated Library and can access subject specific tuition with tutors from top London Universities, through our Tutoring and Mentoring Team. Activity and language development holidays are also organised both in the UK and abroad. Students in all years visit universities and enjoy residential weekends.

A Central Foundation education ensures that students leave the school, and take their place in the world as happy, confident women, fully equipped to lead successful personal and professional lives.
At George Green’s School, we pride ourselves on our passion for learning. Our values led education facilitates aspiration, equality and excellence for everyone, raising the bar for all of our students, opening their eyes to the multitude of opportunities available and equipping them with the skills and knowledge to seize them.

We value tradition and have longstanding history as a hub for the Isle of Dogs and wider Tower Hamlets and Greenwich communities, but we are also a forward thinking and dynamic school utilising up to date learning methods and unique business partnerships.

We have an extensive range of business and community partners who give every student access to life changing opportunities, from mentoring through to summer internships, enriching their experience far beyond the school curriculum.

Ofsted graded us ‘Good’ (February 2017) and said: “The impact of the school’s work is evident in the outcomes. Pupils’ progress in many subjects, including in English and mathematics, is significantly above the national average. Disadvantaged pupils made better overall progress than other pupils nationally. Progress for the most able overall also improved and is above national averages.”

Consistently attaining a positive progress score at GCSE is indicative not only of the strength of our teaching and learning, but of the fact that we are committed to our values that ensure every child in our care gets the attention they deserve. We can do this because our staff are highly trained, passionate and dedicated.

Dedication to our key principles gives George Green’s students a strong sense of morality, instils a deep sense of pride and develops the skills needed to make them high achieving, independent learners preparing them for university or their career and to take their place in the wider world.

It is a source of great pride that our work to help students become global citizens led UNICEF to recognise us as the first school in London worthy of their Rights Respecting Award, for which we have now achieved Gold status.

Starting Secondary School
Making the move from primary to secondary school is an important stage in every child’s life and educational career. To ease this transition, we have created a dedicated induction programme that begins from the moment you receive an offer to our school.

From March until the day students start we host a series of events for parents to receive key information and speak to SLT members, while our new joiners begin to understand what secondary school looks like and meet their new friends.

We have established this process because a positive transition is crucial to incoming students’ well-being and academic development.

School organisation
Once here, students enjoy a broad and balanced curriculum. In the summer term of year 8, students are guided by their teachers to make choices about their subjects in Key Stage 4. We work hard to make sure that the GCSE courses chosen match students’ individual interests so that they are successful.

We run effective programmes for all learners. Maths and English have high priority and our various programmes have had an impressive impact on improving literacy and numeracy levels.

Beyond core subjects, our students have access to a thriving creative community. Students are encouraged to untap their full potential by taking part in activities they enjoy and that will develop confidence and enhance communication skills.
Following GCSEs, students can apply to join our high performing sixth form, and access our prestigious Scholarship Programme. Our Post-16 centre has a strong track record of sending students to the top universities and sought after high-level apprenticeship programmes.

Learning support
Our work in the area of special needs is exceptional and is valued by students and their parents. We understand that additional support may be required by some students and have a dedicated learning support team. All areas of the school are accessible by wheelchair, with lift access to all floors and two additional lifts to allow access to the music department and the Learning Resource Centre. There are four accessible toilets in different parts of the building, two dedicated changing/hygiene rooms and a fully accessible hydrotherapy pool.

Accommodation
Our building is in a prime location overlooking the River Thames and the beautiful Naval College buildings in Greenwich and allows us to maintain our prestigious partnerships with national and international organisations, based in Canary Wharf. Our refurbished school provides an innovative learning environment, students are taught in bright teaching rooms, science labs and specialist technology spaces; with excellent physical education spaces including modern changing facilities, outdoor table tennis and a new 3G astro turf football pitch.

Pastoral care
We advocate strong parent partnerships. Parents are welcomed at all times and our parent partners work specifically to encourage parental involvement in recognition of the critical role of the partnership between home and school. Our website gives up to date information on everything that is happening in the school. Homework is recorded in students’ personal planners and online.

Extracurricular activities
A wide variety of extracurricular activities are available for students before and after school and during the school holidays. The school is open from 7:30am for students and free breakfast club is provided. In addition to many business mentoring opportunities, there are a range of curriculum clubs together with sport and recreation opportunities every night after school as well as drama and music opportunities. The Learning Resource Centre is open for students from 7.30am to 5pm every day.

We believe that George Green’s School is exceptional and we look forward to welcoming your exceptional child to join us.

We aim to provide every student with the qualifications, skills and abilities to secure the best possible future for themselves as happy, confident and responsible adults.

We do this by working in partnership with parents and other schools, businesses, universities and organisations. We are at the centre of the Poplar Partnership, which links Bygrove, Lansbury Lawrence, Manorfield, Marner, Mayflower, St Saviour’s, Stebon, Wellington and Woolmore schools with Langdon Park in exciting ways to provide the best possible education for children and support for their families.

Our sixth form continues to grow and we have increased our curriculum offer. All our students gain places at their preferred university and there is a significant increase in the number securing places at Russell Group universities. The sixth form admissions policy can be found at www.langdonparkschool.co.uk

School organisation

Each student is expected and encouraged to make the most of their abilities, skills and knowledge. We have high expectations of all students in terms of their behaviour, dress and effort.

- A personal tutor guides and supports each student as they progress.
- Homework is an essential part of learning: everyone is expected to follow a full homework programme; there are a range of homework clubs to help students with their work.
- Encouragement and rewards like credits, certificates and verbal praise are widely used and we regularly meet parents to discuss children’s progress.
- Our learning support team helps students who need extra support to access the curriculum and our Ensuring Student Success (ESS) teams identify and support students who need help to achieve their potential for other reasons.
- Our student support officers help us deal with any concerns that might affect learning.
- Bi-lingual students are supported in their studies by qualified teachers of English as a second language.

Learning support

We are committed to equal opportunities and access for all students. The head of learning support oversees the implementation of the special educational needs code of practice.

Accommodation

We have the most extensive site of any school in Tower Hamlets and have recently completed a major rebuild and refurbishment, which has provided us with:

- new buildings for maths, science, drama, music, art and learning support
- new computer suites
- an enlarged sports hall
- a new library, study centre and dining room.

Our sporting facilities are among the best in London. They include a sports hall, gymnasium, dance studio, fitness suite, cricket nets, floodlit tennis courts and multi-use games areas and athletics facilities including an Olympic sized running track.

The Spotlight Centre provides fantastic learning, creative and performing arts facilities for our students including a professional quality performance space, music recording studio and rehearsal rooms.
Pastoral care

Our pastoral programme ensures an effective and stress-free entry process into our school. We get to know each other by visiting primary schools, conducting interviews and by organising opportunities for new students to meet each other in their new tutor group in July.

The form tutor is in charge of the ‘tutor group daily’ and is the most important link between home and school. They will share any concerns with you.

Our code of conduct, written jointly by students and staff, emphasises the need for mutual respect and for the care of our school environment.

Older students from year 10 are specially trained to help and advise younger children when they arrive. They are assigned to each year 7 tutor group and their work continues into year 8.

Links with parents

Our learning contract is a simple outline of what is expected of students, teachers and parents for learning and teaching to be successful. We arrange a meeting for each new group of parents to meet their tutor in July.

The student planner passes messages between home and school. Homework tasks are recorded and parents and tutors are expected to sign it weekly.

There are progress review days and parents’ evenings, where parents can have in-depth individual appointments with tutors and subject teachers to discuss their child’s progress and set targets for future learning. These events are always very well attended.

We also work hard to keep parents informed of how we can work together to ensure our children succeed in the different stages of their education throughout the school.

Extracurricular activities

A number of clubs operate before, during and after school, including a breakfast and homework club and a wide range of creative arts and competitive team sports.

An enormous number of visits take place throughout the year, ranging from one-day trips to theatres and museums, through to offsite residential visits to develop study skills, and exchange visits with students from other countries.

Physical accessibility

All classrooms within the school are wheelchair accessible and each building has an accessible lift. There are several suitably accessible toilet facilities within a short journey from each classroom.

Admission criteria

Langdon Park follows the local authority’s policy and criteria.

Visiting the school

We offer an open evening for parents and we would also encourage them, wherever possible, to come and see the school during the normal school day. Only then can you truly understand what it would be like for your child to come here. We know it can be difficult for working parents to visit during the school day, but we would ask that you make the effort to attend one of our open mornings in order to really appreciate all we have to offer. If you are unable to make any of the dates below, please contact the school and we will try to arrange a visit wherever possible.

London Enterprise Academy opened in September 2014 on Commercial Road, E1. Our vision is to create a truly outstanding school delivering the very best educational opportunities, to nurture academic excellence and enhanced ambition in all our pupils and to inspire the next generation of professionals and entrepreneurs from all backgrounds.

We are a school where:
- Every child will receive an outstanding education taught by highly qualified teachers.
- Pupils will achieve their full potential in a safe environment with strong discipline.
- A broad and balanced nationally recognised curriculum is adopted.
- Active involvement in a range of extracurricular and social enterprise activities is encouraged.
- Every parent will have a strong voice in shaping the future of the school.
- We are committed to equal opportunities as reflected in all aspects of school life.
- We welcome young people from all backgrounds and beliefs.

“Pupils are making sustained progress towards their targets.” – Ofsted 2017

School organisation

London Enterprise Academy students receive high quality learning and teaching.
- Our staff are well qualified to ensure students enjoy lessons, creating a positive and purposeful atmosphere throughout the school.
- Our students are supported by a varied, diverse and personalised curriculum, which meets the needs of all, within an outstanding learning environment.
- We have developed effective partnerships with businesses and the local community as part of our mentoring and social baccalaureate programme. These links are fundamental to our pupils’ success.
- We have established learning partnerships between pupils, parents and teachers through close links with local primary schools, community organisations, local and international businesses and charities.
- We care for the well-being of our students and our staff and we invest in our community.

We are an 11-16 mixed comprehensive school specialising in enterprise education. We will demand high expectations through academic rigour. Your child will be part of our sixth intake and will play a vital role in shaping the future of the school.
London Enterprise Academy

Learning support

London Enterprise Academy is a fully inclusive school, committed to the achievement of all our pupils.

Our building is fully accessible. We have a range of learning interventions and programmes to support the achievement of all students, co-ordinated by our inclusion team. All students with special educational needs are provided with specific targeted support.

Together with our extensive provision for the more able students, including mentoring opportunities, master classes and residential trips, we are committed to supporting excellence at London Enterprise Academy.

Pastoral care

The most successful schools are those that work in partnership with parents. We value the central contribution that parents make in supporting our children’s achievement. We employ a parent liaison officer.

“Bullying is rare and any that does occur is dealt with effectively by adults.” – Ofsted 2017

We have developed effective home/school links to help support you and your child. We have a parents’ forum which plays an important part in our school life. We also offer two positions on the governing body to parents. In 2018, we were awarded a Leading Parental Partnership Award (LPPA).

We maintain contact using:
- Newsletters
- Parent evenings
- Open days
- Parent forums
- Text messages and emails
- Phone calls
- Information on the school website
- A range of celebration events
- Principal’s drop-in meetings/coffee mornings.

Accommodation

The school has excellent modern facilities, enabling us to deliver our nabling us to deliver our broad and balanced curriculum as well as our rich programme of enrichment activities.

The school benefits from new fitted classrooms, five science labs, a multi-purpose sports hall and modern learning spaces as well as the latest technology to enhance learning.

Extracurricular activities

On Tuesday, Wednesday and Thursday afternoons, we offer all of our pupil’s opportunities that will enrich their education by building relationships through sports and healthy activities, club activities and additional academic opportunities in areas other than curriculum subjects. Some of these include martial arts, Arabic language, exam skills and many team sports.

Our students have taken part in a range of trips and visits which included Barcelona, Brussels, Cambridge, Norfolk, London and the surrounding area. We will continue to arrange more of these.

Our school core values are Leadership, Excellence, Ambition, Determination and Sincerity. Our vision is that the curriculum with all its enrichment opportunities will give our students the chance to develop these qualities. These opportunities give the students insight into a range of skills and subjects so that they can widen their perspectives and discover new talents. Many of the subjects can be offered as a certificate or qualification (or lead to a wider choice of GCSEs in the future) and will be an enhancement to any CV.

School policies: see school website
Morpeth is a high-achieving 11-18 community school judged ‘outstanding’ by Ofsted since 2007 in all aspects, including pupil achievement, behaviour and quality of teaching.

As a school, we are proud to reflect the population of Tower Hamlets with a good mix of boys and girls from all ethnic groups in our borough. We pride ourselves on the positive relationships between pupils, staff, parents and the community.

Our pupils have consistently achieved excellent results both at GCSE and in our sixth form, but have also experienced a breadth and richness of curriculum and of extracurricular opportunities during their time with us. Please visit our website at www.morpethschool.org.uk to discover more.

School organisation

Throughout the key stages, we have a focus on breadth of curriculum and on flexibility to meet pupils’ interests and needs. At Key Stage 3 (years 7 and 8), we aim to build on learning from primary school and to develop the skills needed for Key Stages 4 and 5. We do this by focusing on progression, participation, organisation and articulacy both within and beyond the classroom.

At Key Stage 4 (years 9, 10 and 11), we have an innovative curriculum model, which means that in addition to core subjects (English, maths, science, religious education and physical education) pupils choose two options per year which are taught in mixed-age groups for the equivalent of a day a week. This allows pupils a greater breadth of choice and flexibility in devising their own pathways. At sixth form, we have a broad offer comprising 30 A Level and BTEC courses as well as a full range of support to ensure pupils make the best choices and have the best opportunities post-18.

Learning support

Morpeth is a fully inclusive school. We aim for all of our children, whatever their special educational need, to achieve their potential both socially and educationally. Our aim is always to build independence in order to fully prepare pupils for life beyond school.

Accommodation

Morpeth has benefited from extensive development to its buildings, ensuring that pupils have access to state-of-the-art facilities for specialist subjects such as art, music, drama, science, computing and design and technology in addition to all teaching spaces being refurbished to a high standard.

Our sports facilities include a table tennis centre of excellence, dance studio, sports hall, gym and weights room, while our theatre and library are both very well used. We have a separate sixth form centre in our Wessex Wing, which provides additional teaching, study space and a dedicated library for older students.
Pastoral care

Moving to a secondary school is a very important stage in each child’s education. We recognise this and aim to ensure that all pupils feel safe and secure with us.

Pupils are organised into tutor groups and it is the tutor, with the support of the Head of Year, who will work closely with parents to develop a knowledge of each child, to help them overcome any difficulties and to make sure they feel happy, are participating fully and are making progress socially and academically.

All year 7 and 8 tutor groups have their own attached teaching assistant who will work with all pupils in their lessons as well as supporting with the transition to secondary school.

Our behaviour policy promotes concern and care for every individual, mutual respect and a sense of personal responsibility. It is shared and reinforced with pupils through time with their tutors, our citizenship, personal, social, and health education programme (fortnightly lessons) and assemblies. We have a clear system of rewards and sanctions to support this.

Extracurricular activities

At Morpeth we have an outstanding range of extracurricular opportunities to ensure that all pupils are encouraged to extend their studies, pursue their interests and discover new talents. We firmly believe that participation in extracurricular activities is an entitlement for all and to this end offer whole cohort opportunities, including residential trips throughout Key Stage 3 and 4.

We have a wealth of long-established partnerships with business organisations such as Investec, Lloyds and RBS, which means that we can offer work shadowing, business mentoring and masterclasses in subjects such as economics or coding. Investec also financially supports many of the other aspects of our offer, including the provision of free breakfasts, subsidising Outward Bound trips and our Year 8 camping trip.

Our strength in the arts means that we have developed partnerships over the years particularly with the Barbican and Guildhall and (most recently) the National Youth Jazz Orchestra which is based at Morpeth. In music, we have a commitment to offering all pupils free instrumental lessons.

Mulberry Academy Shoreditch is proud to be part of the Mulberry Schools Trust family. The school joined the Trust on 1 September 2018.

Our students thrive in a caring, supportive and nurturing environment, where they are continuously inspired, motivated and encouraged. Our commitment is to ensure that students leave us fully prepared as independent and successful young adults.

Our staff and students work closely together to achieve their best, and through our extensive partnerships, the school is a rewarding and fulfilling place to learn.

In September 2019 we launched a new House system with students and staff all becoming members of one of our six new School Houses. The House system presents more leadership opportunities, encourages student participation in extra-curricular activities, fosters a spirit of healthy competition and celebrates success, as well as integrating students across the year groups.

Our pastoral care is of the highest standards for all and we have high expectations of students’ behaviour. We develop a sense of self-worth in our students and the ability to make well-judged choices, which are embedded in the following key school principles:

Equal opportunity for all students which includes cultural enrichment
- Support to obtain outstanding outcomes, enjoy enrichment opportunities and develop into well-rounded and responsible citizens.

Expectations of success for all students
- High expectations and personalised learning
- A range of engaging and challenging curriculum subjects

Nurturing the personal development of each student
- Providing a supportive and inclusive ethos where every member of staff, and the student body, feels collective responsibility for the welfare and success of others
- Developing British Values: tolerance, respect, empathy and democratic values
- Equipping students with critical thinking skills to help them to make informed and responsible decisions
- Developing student independence and collaboration.

We will provide every opportunity we can through the curriculum so that our students can be sure of:
- The highest academic achievement
- That creative expression is actively encouraged
- A commitment to social action and the community
- The best possible preparation for each next learning stage towards aspirational destinations

Our curriculum options are divided into three pathways that set out the 11-19 learning journey students undertake while at the school. At all key stages, students are assessed on their attainment, progress and attitude to learning.

Sixth form
Creative lessons inspire and challenge students, whilst also preparing them for the demands of further study and independent learning. We offer a tailored curriculum for each pathway, which allows us to meet the needs of all students who wish to continue their studies further.
Whether the ambition is to go to University, follow a vocational career or become their own boss, we have a personalised approach that meets the needs of all our students.

**Learning support**

**Inclusion**

Mulberry Academy Shoreditch is proud to serve the community as a fully inclusive school and we love, value, support and encourage all our students. We provide extensive, personalised support packages dependent on the specific needs and talents of our students. We value the contribution that every individual can make at the school, regardless of ability or background.

Students with special education needs and disabilities (SEND) are part of our vision, practice and GCSE success. The personalised support we put in place for students means they are able to flourish as independent and confident learners.

**SEND provision** has a dedicated and well-equipped suite of rooms and is home to the Learning Support Unit and Pastoral Support Centre.

Our highly skilled and committed team of teaching assistants and team of learning mentors support students both in and out of the classroom.

Our highly experienced literacy team promotes the importance of reading for pleasure and specifically identifies students for whom additional support is required via one-to-one and small group literacy interventions.

**Accommodation**

**Physical accessibility**

All our buildings and changing rooms are wheelchair accessible, with eight disabled toilets and three lifts, allowing access to all floors.

**Pastoral care**

**Behaviour and expectations**

Expectations are high for our students and they take full responsibility for their behaviour as outlined in our student pledge. A reward scheme is in place to praise, reward, encourage and inspire young people to succeed.

We have a strong primary transition programme in place with lots of exciting events taking place in holiday time and after students have joined us. We have close relationships with the local primary schools where our students come from.

**Parent communication**

We recognise that positive working relationships with students and their families are key to our academic success. Student attainment is rigorously monitored and parents and carers receive half termly reports detailing their child’s academic progress, attendance, punctuality and attitude to learning.

There is a weekly newsletter that every student takes home on a Friday, detailing all of the latest news and views and best stories of the week.

**Extracurricular activities**

Students engage in a range of stimulating activities to help develop an exceptional range of skills. Students benefit from an impressive assortment of trips and events. Activities include arts, culture, drama, sports, music, overseas visits, modern foreign languages, volunteering and fundraising.

Mulberry School for Girls is a vibrant, high achieving and over-subscribed girls’ comprehensive school for pupils aged 11 to 18. We are an eight-form entry school with approximately 400 places for pupils in the sixth form.

We believe that education is a life chance and that every pupil is entitled to the fullest and richest educational experience. Every individual is valued and respected, enjoying the highest possible standards of educational provision.

Mulberry aims to create a learning and teaching environment in which every pupil enjoys their education, feels secure and is able to flourish and reach their full potential.

High standards of achievement and academic attainment for all is promoted, which enables every pupil to leave Mulberry enriched with skills and experiences that will further develop talents and gifts.

Mulberry is committed to creating a learning environment which meets the educational and social needs of every pupil, regardless of ability, aptitude, ethnic background or disability, and which provides for their physical and emotional requirements.

The school assists pupils to become confident, creative and questioning young women with the ability to lead in – and contribute to – a range of fields including work, political and social citizenship, the community and family life.

Positive links with parents and carers and the community are developed through partnerships and by making the school’s resources available for community learning throughout the year.

School organisation
The curriculum is challenging, broad and balanced from Years 7-13, and provides a range of academic and career pathways, as well as a wide programme of extracurricular learning, including arts and international activities.

Mulberry teaches core and foundation subjects largely in line with the national curriculum. At Key Stage 3 (ages 11-14), this includes English, maths, science, design and technology, computing, expressive arts, PE, modern foreign languages, religious studies, history, geography, and personal health and social education with citizenship. These subjects may be themed and progress is formally assessed.

In Key Stage 4, pupils study core national curriculum subjects, with computing offered as an additional option alongside other subjects to GCSE level. The curriculum on offer to sixth form pupils allows them to take courses from entry to advanced level, including a range of vocational routes. The curriculum offer is complemented by collaboration with other schools and providers.

The sixth form admissions policy can be found on the school website www.mulberry.towerhamlets.sch.uk

Learning support
Mulberry is an inclusive environment. Our building is accessible for mobility-impaired pupils. We have a multi-sensory learning laboratory for those with visual, hearing or complex learning requirements and employ a special educational needs coordinator, who is supported by specially trained special educational needs (SEN) teachers and teaching assistants. We also work closely with a range of therapists and medical practitioners.

To afford all pupils with the widest range of learning experiences, we teach in mixed as well as same ability groups. Some learning also takes place in mixed age groupings. English language support is available to those who are at an early stage of learning English as an additional language.
Accommodation

Mulberry has a modern school building, providing the best possible accommodation and facilities. The school benefits from contemporary, specialist teaching bases in all curriculum areas, including dance and drama studios, a music suite, sports complex, 11 science laboratories, a newly equipped technology wing with specialist catering/restaurant facilities, two libraries and seven computer/ICT rooms. In addition to the ICT bases, faculties have classrooms, which are equipped with computers, and all other classrooms have ICT facilities. The school is also wireless enabled.

To support access, ramps are in place where needed and stairs are painted according to advice from the visual impairment service. There are lifts throughout the site, with teaching assistants escorting pupils where necessary.

Pastoral care

We are committed to pastoral care to support the personal and academic progress of each pupil. We value links with parents and the community and consider education to be a partnership between home and the school. Our teaching staff work closely with primary schools to ensure that our work supports the continuation of their learning.

We practice an open door policy, where parents are welcome at all times. Parents are encouraged to visit, not only for formal occasions but to discuss issues with staff as they arise. This is essential if parents are to support the learning process and the achievement of their daughters.

Pupils are expected to follow our uniform requirements and behaviour policy. Discipline is built upon understanding of, and respect for, other people. Great emphasis is placed on attendance and punctuality, and these are monitored daily.

Extracurricular activities

Mulberry is a centre for excellence for out-of-hours learning. We offer after school and lunchtime activities to learn new skills, broaden horizons and develop self-confidence and leadership. Mulberry has a dedicated women’s education team who develop partnerships and run activities, which are tailored to supporting the development of pupils to become questioning, well-mannered, inspirational and confident young women at the end of their school career.

Oaklands reflects the local area and brings together boys and girls of different backgrounds, abilities and talents.

We are very proud of our school and of our students. Over the last three years we have been the highest achieving mixed school in Tower Hamlets at GCSE level, with the highest rates of progress for boys and girls. Nationally our progress rates at GCSE have placed us in the top 5% of schools, with results in English being well above the national average and in the top 8% for Maths and 3% for science and modern foreign languages.

Our students also take part in an exciting range of other activities to facilitate their personal development and demonstrate their commitment to Oaklands School, the wider community we serve and the international community to which we belong.

We are a learning community…
- We are innovative and creative, caring and respectful, and work in partnership.
- We are confident in our aspirations and ability to achieve.
- We contribute positively to our diverse world.
- We are on our learning journey …that knows no barriers

School organisation

Oaklands is a mixed 11–18 school committed to creating opportunities for all to succeed. We have 600 students in years 7–11 and 200 in the sixth form.

All students follow the national curriculum. In years 7 and 8 all students follow a broad curriculum. Students then start Key Stage 4 in year 9. They are required to make some subject selections at the end of year 8 and again at the end of year 9. Careful consideration is given to making sure students are matched to the right courses for them. High-quality careers advice and guidance is given to students to ensure they progress to the right post-16 education pathway.

At 16, students are expected to continue their education at school, college, in training or in employment until the age of 18. Oaklands sixth form offers a variety of level 3 courses including traditional subjects at A Level and vocational BTEC diplomas (equivalent to three A Levels). Students make very good progress and and we are consistently one of the highest achieving Sixth Forms in Tower Hamlets. Our outcomes are consistently at or above national averages.

Due to excellent results and first-rate advice and guidance, approximately 40% of students each year go to Russell Group universities, with many studying at prestigious universities such as Oxbridge, UCL and King’s College London and we have a very high success rate for competitive courses, such as medicine. We are an inclusive sixth form, having a small cohort of Foundation and Level 1 learners, who stay with us until 19. We prepare our most vulnerable students for life in the outside world through skills based qualifications.

More about the sixth form, including our admissions policy, can be found on our website.
Learning support
We are committed to ensuring that our school is open and accessible to all students, whatever their particular need. Students who need extra help with their learning are closely monitored by the Special Educational Needs department. There is specialist help for students whose first language is not English. We also offer a comprehensive intervention programme for students aged 11-18. We have wheelchair access, lifts and accessible toilets for students with disabilities.

Accommodation
We have a unique site split across two buildings, connected by a bridge. Our facilities are modern and the buildings benefitted from recent Building Schools for the Future funding. We have a broad range of onsite sporting facilities, in addition to making good use of Weavers Fields and other local amenities for school sport.

Pastoral care
At Oaklands, our strong caring ethos is reinforced by our experienced key stage pastoral teams, to ensure our students feel supported through their education. Each key stage team is led by a Key Stage leader - a senior member of staff – who coordinates a team of pastoral leads and assistants. These pastoral leads and assistants are non-teaching staff, which ensures they are always available to provide pastoral care to Oaklands’ students and give advice and guidance to families.

Extracurricular activities
Making sure our students have opportunities for extra-curricular clubs and trips is paramount to their development at Oaklands. We offer a broad range of clubs that run before, during and after school - to give students the opportunity to extend their learning and occupy their time productively. These range from the Bank of England challenge to sports and after school learning/homework groups.

As part of our Oaklands pledge, students are given opportunities to extend their learning on trips. These range from days at local museums to our annual visit to Spain.

Raine’s Foundation School

**School organisation**

Pupils are divided into forms of mixed ability and are generally taught in their forms for the first two years. Raine’s provides exceptionally rich opportunities to challenge students of all abilities, including options in Year 9 to study triple science. The school offers a wide variety of academic subjects including optional courses selected by each child from Key Stage 4 & 5. Religious studies is taught throughout the school. Progress is closely monitored.

Raine’s is now located on one site with outstanding facilities, such as specialised science labs and a full-size gymnasium. All curriculum areas have excellent IT facilities. The gymnasium is used extensively by students and by professional basketball teams.

**Our sixth form**

The sixth form admissions policy can be found on the schools website: www.rainesfoundation.org.uk

**Student enrichment and engagement opportunities**

Enrichment is a fundamental element of learning at Raine’s and the foundation of the experience beyond the classroom, motivating students and promoting independence and resilience.

- **The Brilliant Club** a ‘super curriculum’, to deepen students’ knowledge in either the arts or stem. This programme also involves workshops at Cambridge University.
- **First Story** is an organisation which provides fun creative writing programmes, led by a professional writer. Students also attend a First Story regional writing event, at the Courtauld Gallery.
- **Year 7 team building day** aims to promote positive communication skills and teamwork.
- **Lawyers in school programme** involves more than 40 law firms, in-house legal teams and chambers engaging with students. This fantastic opportunity culminates in a one-day workshop at both Credit Suisse headquarters and Clifford Chance in Canary Wharf.
- **Work** helps students to broaden their minds about possible future employment. All Year 10 students are offered a week-long work placement.

**IMPORTANT NOTICE:**

Raine’s Foundation School is subject to proposals for it to close in August 2020. Parents wishing to apply for Year 7 entry in September 2020 are strongly advised to also name up to five alternative schools, in order of preference, on their application. A decision on the future of Raine’s School will be taken in January next year and before parents are notified of the outcome of their secondary transfer application on the 2nd March 2020. If you name Raine’s amongst your school preferences and a decision is made to close the school, the order of school preference on your application will be adjusted accordingly. Please note that no further preferences will be allowed after the application closing date on the 31st October 2019.
Learning support

Raine’s believes in equality for all and is committed to enabling all students to achieve their full academic potential and to develop into active, confident members of society. Staff ensure quality-first teaching is delivered in all lessons. They are introduced to students with special educational needs and their requirements on the first day of academic year. Maths and literacy intervention is provided at Key Stage 3 and there is additional support in place.

Accommodation

Physical accessibility
The school is fully compliant with the Disability Discrimination Act. There are wheelchair ramps, lifts to all floors, accessible toilets on every floor and a changing/hygiene room.

Pastoral care

Raine’s is a small school where every student is known. Pastoral leaders support and nurture students. The highest standards of behaviour are expected at all times.

A guidance programme includes personal, health, social and careers education in Key Stage 3.

Students set targets for academic progress and rewards are key to raising achievement. Punctuality and attendance are seen as essential elements in supporting progress. Students are rewarded with end of term and year trips.

Student Leadership
There are extensive opportunities for students to contribute to both teaching and learning, and wider aspects of school life. Leadership roles include both prefects and a school council representatives.

Parental Links
Parents are involved through consultation and guidance evenings, and regular reporting. They are welcome to visit the school and there are a number of evenings for parents to discuss their child’s progress.

Extracurricular activities

There is a flourishing and varied sports programme. The school employs full-time table tennis and basketball coaches in addition to the PE staff. This year we reached the national and London finals for basketball and we regularly win at local and regional in table tennis tournaments. There are also performing arts clubs and, at different times throughout the year, additional curriculum clubs, such as Film club and creative writing clubs are also provided.

Raine’s is renowned for leading the Duke of Edinburgh’s Awards programme within Tower Hamlets and regularly visits Buckingham Palace in recognition of our Gold Award achievements.

Excursions are organised to destinations such as the USA, the French Alps and the Middle East, as well as to more local places of interest. As part of our rewards programme, pupils are selected each term for great days out.

From September 2016, we became the founding school of the University Schools Trust, an exciting new multi-academy trust, with Queen Mary University of London as the lead sponsor. We are committed to achieving the best possible education for our students. In April 2013, Ofsted judged the school to be outstanding in all areas and praised the school for its “relentless pursuit of scholarship and excellence”.

The university school in the heart of east London
We expect each of our graduates to be fully prepared for the opportunities and the demands of the adult world. During each child’s school career, we place strong emphasis on six key areas: communication, investigation, networking, participation, scholarship and vision. It is because students learn to excel in these areas that they gain the confidence to become successful global citizens.

Science and arts specialisms
We are the first Faraday Science School in London, with a £1 million science centre and innovative, experience-led ways of teaching. Our science and arts specialisms provide creative and investigative learning opportunities for all our students. Professor Brian Cox, our patron, directly supports the work of the school.

School organisation
The St Paul’s Way Graduate
Underpinning our subject-based curriculum are the six learning strands. Developing skills across these areas enables our students to aim high, realise their ambitions and make a worthwhile and enjoyable contribution to society.

Our curriculum
All students in years 7-9 follow a broad and balanced curriculum, including English, mathematics, science, art and design, geography, history and modern foreign languages.

Since 2014, we have changed our admissions criteria to accept 5% of the students on the basis of musical aptitude. These students follow a bespoke music curriculum and take part in a wide range of performances.

At Key Stage 4, students are given an even wider choice of subjects to choose from, offering every learner the best chance of success. Routes into higher education and employment are well planned from an early stage.

Academic sixth form
Our A Level programme is designed to prepare students to apply to the best universities in the country. In addition to their academic studies, students also have a wide range of enrichment and work experience opportunities. Through our trust partners, we are able to offer bursaries and scholarships to support students as they progress to university or high level apprenticeships. The sixth form admissions policy can be found on the schools website: www.spwt.net

St Paul’s Way Trust All Through School
Since September 2014, we have been welcoming children to our reception and from January 2017 to our nursery. Students from our primary phase get an automatic placement in our secondary school. We encourage all of our students to develop a lifelong love of learning. Working with youngsters of all ages ensures that St Paul’s Way Trust School can build on the skills, knowledge and experience of all of our students.

Teaching school status
In April 2014, we were designated a national teaching school and we are also a national support school. In these roles, we work with schools in London and beyond to develop innovative and outstanding pedagogy.
Learning support
Our school is a diverse and inclusive learning community. We have considerable experience in supporting students at the early stage of learning English and those who have difficulty with their studies, as well as providing opportunities for gifted and talented learners. We are a deaf-friendly school and have highly successful specialist support for hearing impaired students.

Accommodation
The school benefits from a state of the art science research and visual arts facilities. Our sports facilities are exceptional and we offer professional tennis coaching. All rooms are accessible by wheelchair. There are two lifts reaching all floors with a disabled toilet on each floor (four in total). There are also specially designed shower and changing room facilities for wheelchair users. Every classroom has adjustable height desks.

Pastoral care
Our graduate strands underpin our unique home-school agreement, and support the school in developing outstanding behaviour for learning. We regularly recognise our students for displaying exceptional graduate skills which culminate at our annual Foundation Day awards ceremony at Queen Mary University.

In addition to exceptional year team leaders, our pastoral teams include highly skilled non-teaching pastoral leaders who develop personalised support for each child.

Extracurricular activities
We encourage all students to participate in activities outside their timetabled lessons through our Extra Connection programme. This provides opportunities for them to broaden their learning and explore and develop new talents and skills.

We currently run sessions in sport, music, drama, art, photography, science, computing, technology, debating, dance and languages, as well as entering students for the Duke of Edinburgh’s Award scheme. There are opportunities to explore London and we also offer trips across the UK and abroad. Last autumn 8 students crewed a tall ship for ten days in the English Channel in the Tall Ships Challenge.

We want your child to learn in a secure, well-ordered and stimulating environment that broadens their horizons and gives them every opportunity to reach the highest academic standards and to achieve further success at college, university, and in their career and relationships with others.

We aim to:
- encourage respect for all in our multi-faith, church school community
- help develop independent learners who have the skills and qualifications to lead a successful life
- work in partnership with parents and the wider community to maximise achievement and facilitate learning as a lifelong activity.

Standards
For several years, students at SJCR have consistently achieved some of the highest results locally and nationally at GCSE. Ofsted has identified excellent levels of achievement in academic and vocational subjects at the school and results are well above the national average. The school’s assessment information also shows excellent progress rates over time for students across all key stages.

School organisation
All students at Key Stage 3 follow a broad and balanced curriculum which includes English, mathematics, science (biology, chemistry and physics), art, computer science, design technology, PSHE/citizenship, drama, geography, history, a modern foreign language (Spanish, French or Bengali), music, physical education and religious education.

At Key Stage 4 students are offered all core subjects with a choice of additional subjects to GCSE level. The English Baccalaureate subjects (English, maths, science, geography/history and a modern foreign language) are on offer to students as well as courses such as art, business studies, child development, computer science, design technology, drama, film studies, graphics, health and social care, hospitality and catering, media studies, music, PE, psychology, RE, resistant materials, sociology, sports science and textiles.

In our sixth form college we have an exceptional range of level 2 and level 3 courses including A-levels and BTECs. Levels of achievement are among the highest in Tower Hamlets.

A range of sixth form subjects are offered including: art, Bengali, biology, business studies, chemistry, computer science, design and technology, drama, economics, English (language and literature), extended project qualification, French, geography, government and politics, graphics, health and social care, history, ICT, law, mathematics, further mathematics, media studies, music, personal & business finance, philosophy, physics, psychology, RE, sociology, Spanish, and sports science.

The sixth form admissions policy can be found on the school’s website: www.sjcr.net/sixth-form

Learning support
The school’s special educational needs policy follows national statutory guidelines.

Teachers at SJCR are skilled in adapting and responding to the learning needs of their students. In addition, extra support is available for those who experience specific learning difficulties. These students may benefit from one-to-one sessions from highly qualified specialist teachers with support carefully tailored to the needs of the individual. The learning support department also works closely with teams of other professionals with expertise in specific learning difficulties and special educational needs, to ensure that individual students are supported.
Accommodation
SJCR has exceptional resources, a state of the art learning and resource centre, a drama theatre and recording studio for the performing arts, well-equipped science laboratories and sports facilities including a swimming pool and multi-use games area. In addition, the school has dedicated blocks for the sixth form which include an independent learning centre, library, café and common rooms. Further facilities include ICT and multimedia suites, independent learning centres, our technology block and a multi faith room.

Physical accessibility
The school has a lift as well as stairs to all upper levels in the main building. There are two sets of accessible toilets and changing rooms. The art and technology rooms are only accessible by stairs. As far as possible, the school will ensure that students with disabilities have access to the same opportunities as other students.

Pastoral care
An orderly environment is essential if students are to learn well. To support this, our code of conduct, the Cass Way, was produced in partnership with students, staff and governors and underpins our school’s ethos and values. Discipline is based on respecting others, balanced against the rights and needs of each student. We want to ensure that your child is secure and cared for by staff. The Head of Learning plays an important part in monitoring your child’s development.

The support we receive from parents is excellent and is a substantial factor in the school’s success. We attach great importance to our links with our feeder primary schools. We run a sports programme for primary students, support a local primary in the teaching of Spanish and run a wide range of annual events.

In the summer term new students attend an induction day and parents/carers attend individual induction interviews. Our teachers also visit students in their primary schools to ensure the transfer is as smooth as possible.

Parents can meet with staff, including the headteacher, and governors and other parents whose children attend the school. Parents’ evenings are held throughout the year and we encourage parents to contact the school if there are any concerns. We also run review days for all parents and students as well as regular parental forum meetings.

Extracurricular activities
The SJCR Enrichment Programme offers a range of opportunities including social and sports clubs, arts, activity groups, homework support and extra classes. Students have the opportunity to extend their skills and experience through sessions in debating, computer coding, drama, engineering, learning new languages as well as schemes such as the Duke of Edinburgh’s Award. SJCR students will also take part in an extensive careers advice and guidance programme working with businesses and universities including Oxford and Cambridge.

Thanks to grants from the Sir John Cass Foundation, students attend residential courses, summer schools and field study visits. In addition we run trips locally and nationally including to the Cass Mountain Centre in Wales. Our wide range of international opportunities include British Council funded visits to the France, Spain, Italy and Poland as well as global projects with partner schools from Finland to Bangladesh.

Stepney Green Maths, Computing and Science College is one of the top performing schools within Tower Hamlets. Current attainment levels are well above the national level. From September 2020 Stepney Green will become a mixed school, ensuring the very best of education for boys and girls, from Year 7 to Year 13.*

Many of our students progress on to the top universities in the country. There is a real drive for high standards, ensuring all students leave the school with exceptional qualifications. Stepney Green MCSC continues to be a popular choice for parents.

The school is an academy for boys and girls and a foundation member of The Tower Trust.

How do we involve parents and keep in touch?
There is a parents’ newsletter each term. There is a parents’ calendar of the main events in the college.

There are five annual parent/teacher consultation meetings, one for each year. There are the annual and termly interim reports on your child’s progress at school. The Headteacher is available to meet parents without any appointment on Thursdays from 4pm-5pm. Parents may arrange to see the Headteacher at other times by making an appointment.

Parents can ring the school during the school day to make an appointment to see a teacher, if he/she is not teaching. A parents’ and visitors’ room is available so parents and staff can meet and talk. There are parent governors on the governing body.

School organisation
What will students be taught?
At Key Stage 3, years 7 and 8, the national curriculum subjects are taught and there is a broad and balanced curriculum.

At Key Stage 4, years 9, 10 and 11, the core subjects are taught at GCSE. Your child will also have a range of option subjects to choose from at GCSE, these include: French, Bengali, art, media studies, history, geography, sports studies, business studies, design and technology and music.

At Key Stage 5, the school offers a range of A Levels and BTEC qualifications at level 3.

The sixth form admissions policy can be found on the schools website: www.stepneygreen.towerhamlets.sch.uk

Learning support
How are pupils with special educational needs supported?
We are committed to including all pupils so that they can access the curriculum. Support for students with a special educational need will be provided in a variety of ways, mainly by in-class support but also through small group work. This is organised by the special educational needs coordinator and a team of teaching assistants.

There are teachers specifically employed to improve our student’s English language and literacy skills. The learning support unit helps students who may be experiencing a temporary difficulty in mainstream lessons for a variety of reasons. Borough agencies work with staff in school to help students who may be experiencing similar or longer-term difficulties.

Accommodation
What are our buildings and facilities like?
The older buildings date from the 1960s. There have been recent additions that include:

- a spacious library with ICT facilities
- humanities classrooms
- a learning support centre, fully equipped with ICT
- a new sports centre with roof-top play pitch
- a new teaching block with state-of-the-art learning facilities
- a new state-of-the-art 6th Form Block.
The school also boasts a state-of-the-art sports hall and an additional teaching block. The new facilities incorporate a prayer area for student use. The new build has added greatly to the existing outstanding provision, ensuring our students have a school fit for the 21st century.

The school is fully Disability Discrimination Act compliant and has a treatment room for medical use.

**Pastoral care**

The team leader for year 7 and their tutors will ensure the move from primary to secondary stage is successful and that the students settle in well to their routines.

The Key Stage 3 team leader and team will have oversight of students' welfare and academic progress in years 7 and 8.

The Key Stage 4 team leader and tutors will ensure the students are successfully prepared for their GCSE examinations and their move to post-16 education.

Students will be placed in a tutor group and the form tutor will see and monitor your child's daily attendance, punctuality and uniform. All students are issued with a school planner in which your child must record their homework and you may write notes to teachers – the planner aids communication.

We encourage students to develop their responsibilities and show mutual respect for all who work and learn here. There is a thriving school council and a system of prefects in year 11, including a head prefect and deputy head prefects. In the sixth form we have a school president and a deputy president. There is a home school agreement which we, pupils and parents all sign.

Merits and certificates are awarded for good work, effort and behaviour.

**Extracurricular activities**

**What extracurricular activities are offered?**

We recognise that such activities broaden and expand students' talents and interests.

- The Library is open from 7.30am, at lunchtimes and after school until 5pm.
- The physical education department runs football and table tennis matches at lunchtime, after school and on Saturdays.
- The Duke of Edinburgh's Award scheme is well established at the school.
- Revision classes and extra lessons are a regular feature of life during the holidays and on Saturdays.
- HSBC bank has provided funding of £100,000 for 30 students per year to go on a week's outward bound course in a national park.

We are a vibrant and thriving 11-19 mixed comprehensive school. In our most recent inspection by Ofsted, we were judged as outstanding in all areas.

Swanlea has built an enviable reputation for outstanding academic success and we are very proud of what our students achieve, attributing this to our supportive staff, parents, carers and hard-working governors.

At Swanlea, we want to see all students become highly skilled learners, achieving excellent standards and leading fulfilling and exciting lives. Our commitment to equal opportunities is reflected in all aspects of school life where we welcome young people from all cultures, backgrounds and beliefs. We celebrate these in our shared Swanlea values: respect, aspire and achieve.

Swanlea students receive outstanding learning and teaching opportunities. Students and teachers alike enjoy lessons, which make for a positive and purposeful atmosphere. Students are supported by a varied and diverse curriculum which meets the needs of all within a high-quality learning environment.

Swanlea School is in the top 15% of schools and colleges in the country. Additionally, our Progress and Attainment 8 scores are consistently above the national and borough average.

Since 2008, Swanlea has been an 11-19 secondary school offering education at all Key Stages up to university entrance. Ofsted judged our sixth form to be outstanding. Students have gone on to study courses such as law at Oxford, aeronautical engineering at Imperial College London and medicine at King’s College London.

Swanlea is a fully inclusive school, committed to the achievement of all of our pupils. Our building is fully accessible and we welcome pupils with physical disabilities. We have a range of learning interventions and programmes to support the achievement of all students, coordinated by our inclusion faculty.

All students with special educational needs are provided with specific, targeted support. Together with our extensive provision for our more able students, including city mentoring opportunities, masterclasses and residential courses, we are committed to supporting excellence.

Our facilities include fully accessible lift access to all floors and five accessible toilets, one of which includes a fully accessible wet room and hoist.

The school has fantastic facilities. We benefited from the multi-million pound Building Schools for the Future programme, which created our new block allowing for exciting learning spaces, modern furniture and outstanding technology. We also have fully equipped laboratories, technology workshops and drama and dance studios. Students benefit from newly landscaped outdoor spaces and two full-size floodlit multi-use games areas. We also hold our whole school annual sports day at Mile End Stadium and have regular use of Whitechapel Sports Centre.

Our pastoral care, welfare and support for students have been judged as outstanding. Your child has access to a wide range of support and guidance to help them achieve.

Our pastoral care team is led by a learning coordinator and a deputy learning coordinator who, together with parents, carers and staff, supports your child’s welfare and the school’s learning ethos.
We aim to make the transfer from primary to secondary education as smooth as possible by:

- Visiting pupils whilst still at primary school and discussing their needs with class teachers.
- Inviting pupils to an individual admissions interview with parents/carers in the summer term before they start.
- Inviting primary school children and parents to use our exciting facilities and to take part in taster lessons.
- Running information sessions that introduce parents and carers to life at secondary school.
- Working with our East 1 Schools’ Partnership of seven local primaries, which helps us support and empower parents and pupils, raising achievement and supporting transition.

The most successful schools are those that work in partnership with parents. We value the central contribution that parents/carers make in supporting children’s achievement. We have developed very effective home/school links to help support you and your child.

We have a parents’ association, which is central to school life while our parent governors play a significant role in the success of the school. We maintain contact through:

- newsletters
- parent evenings
- open days
- parent forums
- weekly headteacher open drop-in meetings.

Our Saturday morning school provides additional learning opportunities for students in all subjects.

The school holds the Investors in People award, Healthy Schools award, the Equalities award, Artsmark Silver, the British Council Gold Standard International award and Advanced Status for out-of-hours learning provision.

Extracurricular activities

We believe that effective partnerships are fundamental to our pupils’ success. Strong learning partnerships are forged between pupils, parents and teachers through close links with local primary schools, community organisations and local and international businesses.

We care for the wellbeing of our staff and our students and make sure that we invest in our community. Our extracurricular activities have included badminton, boxing, archery, enterprise initiatives with the Bank of America, Merrill Lynch and Deloitte and other local, citywide and international businesses. We also have a strong music and art department showcased through our numerous concerts and exhibitions.

Wapping High School is a dynamic, innovative, co-educational school. We deliver an engaging all-round education that supports academic achievement, while developing the skills, knowledge and qualities students need to be equipped for life in the modern world.

As a Free School, we currently follow the national curriculum although we are distinct from other schools in that we innovate aspects of the provision such as our dedicated enrichment programme, thematic teaching of STEAM (Science, Technology, Engineering, Art and Maths) and digital learning which is structured around an underlying commitment to young people’s skills.

We are extremely proud of the diverse nature of our student body and celebrate their differences which enrich our school community. Students experience a rigorous and innovative curriculum that makes learning more relevant and engaging, with young people taking ownership of their own learning.

We pride ourselves by setting high standards for both students and staff alike and work closely with parents. We are committed to ensuring that every child can achieve their full potential both academically and personally, benefiting from the school’s partnerships with local and national organisations across the performing arts, sport, technical and educational domains.

School organisation

Wapping High School provides a broad and balanced curriculum that prepares students for a rapidly changing world. Students study the full range of national curriculum subjects and at Key Stage 4 have the opportunity to select from a wide range of GCSEs and BTEC’s.

The curriculum blends high-quality, imaginative learning supported by a rich, digital environment with a rigorous focus on making excellent progress. Students are expected to take significant responsibility for their own learning, to take pride in their work and to support each other in achieving outstanding outcomes. Visits to and partnerships with universities ensure students raise their aspirations and aim high in whatever field they wish to pursue.

In Years 7 and 8, as well as following the core curriculum, the students experience learning through REAL projects which is a design for learning that connects deep subject content with real world problem solving. REAL Projects enable all students to create extraordinary work that matters. This means that learning is enquiry based, developing high level thinking skills in a real world context, which leads to extended projects which are regularly exhibited publicly.

Year 7 and 8 students enjoy ‘Workshop Wednesdays’ on Wednesday mornings in which Humanities and the STEAM subjects (science, technology, engineering and maths applications) are explored through project learning. Wapping High also links and shares our project learning outcomes with other schools including one in New York, USA. Final products from ‘Workshop Wednesdays’ and REAL learning include publishing a book, or creating audio tours and performances which provides students with the opportunity to develop a range of transferable skills, these include time management, collaboration and problem solving while also gaining an in-depth understanding of their subjects. Guest mentors from other partner institutions and public life are invited to participate with projects and activities throughout the school.

Wapping High School develops 21st century learners as confident, collaborative, independent and digitally literate young people. Students use mobile devices to access online learning tools and applications, so they can take ownership of their learning. The school’s ‘buy your own’ Chromebook scheme enables each student to own their mobile device.
Learning support
At Wapping High School, we support and value the abilities of all our learners and aim to provide every student with access to a broad and challenging curriculum. All students learn in mainstream classes, often in settled groups, where staff support students as independent and autonomous learners. We remain committed to providing excellent learning support strategy at the school. We have a dedicated Special Educational Needs Coordinator along with a team of learning support assistants to provide all special education needs support.

Accommodation
Our school building is an innovative 21st century learning space which provides us with a great deal of flexibility for students to make full use of. In line with our ethos, the school building has a mix of specialist and open plan learning spaces. The accommodation includes industry standard technical and practical areas, a cafeteria and social spaces. The school also draws on external facilities to enrich and extend the performing arts and sporting options which give access to a range of external venues.

Pastoral care
We are a small school, with a strong sense of community where each child is known personally. Students are divided into houses to encourage interaction across the age groups and to create a safe and caring environment. Tutor groups within each house have a tutor to support and guide students both academically and socially. Families form an active part of the school community and are continuously involved with their child’s education.

Every aspect of school life is guided by a clear ethical code, to foster social awareness and help students understand and meet with confidence the challenges of a diverse and changing society and the world of work. The attitude to learning policy sets high expectations of behaviour for learning in the school. Each house is led by a pastoral leader who provides outstanding pastoral care and support to ensure that students develop into confident, well-educated, resilient young adults.

Extracurricular activities
The Wapping High School day enables all students to participate in a diverse and engaging enrichment programme that stimulates and motivates them to draw out hidden talent. Students can choose from a range of activities, clubs and societies. Popular clubs include: coding, cooking, marketing, film club, football, book club, debating, performing arts and homework club. The school also organises a wide range of extracurricular trips to museums, art galleries, theatre’s, sporting events, exhibitions, careers events, universities and other countries. Reward trips take place every term for those students with the best attendance and highest number of house points.

East London Arts and Music (ELAM) is a games design, music, film and television college for 16-19 year olds. We focus on developing the next generation of young, creative, entrepreneurial talent.

Graded ‘outstanding’ by Ofsted in all categories, ELAM’s trainees work and learn alongside the creative industries’ leading organisations and professionals. Real world projects, work placements and expert mentors develop the technical and personal skills needed to succeed at university and within the workplace. ELAM is totally committed to the successful progression of its trainees on to these pathways.

Underpinning the development of our trainees and the practice of our staff are ELAM’s values of collaboration, excellence, innovation, integrity and drive. These values align ELAM with our partners and are embedded in everything we do. We try to live and breathe our values through our behaviours and see them as the key to success for all.

School organisation
The course at ELAM has been designed with creative industries such as Universal Music UK, YouTube and Creative Assembly so that all trainees have the skills, knowledge and portfolio of work they need to enter the workplace when they finish their studies. There are three main courses at ELAM: music, games design and film and television. Trainees on these courses will take the UAL level 3 extended diploma, which is the equivalent to 3 A Levels in UCAS points and contact time.

In addition to either of these qualifications, all trainees study maths and English as the skills developed in both are critical for success in the creative industries. The level at which trainees study maths and English depends on their starting level upon entry. We offer A levels, AS levels, level 3 qualifications and GCSEs in both maths and English.

Alongside these rigorous qualifications, all trainees get extensive and direct access to the professional industries through weekly masterclasses, a unique mentoring programme and unparalleled work experience opportunities.

Learning support
All schools in Newham and Tower Hamlets have a similar approach to meeting the needs of young people with special educational needs, and are supported by the local authority to ensure that all young people, regardless of their specific needs, make the best possible progress while in school.

ELAM will meet the needs of trainees with the following special educational needs and disabilities (SEND):
- communication and interaction
- cognition and learning
- social, mental, and emotional health
- sensory/physical.

Our inclusion team, led by our special educational needs coordinator (SENCO), provide specific support for learners with SEND.

Accommodation
ELAM is a day school based in: Maltings Close, Bromley-by-Bow, E3 3TA

Pastoral care
ELAM has a pastoral team and a SENCO who provide a thorough support system for all trainees.

ELAM runs a tutor system so all trainees and parents have a tutor as a first point of contact for any issues.

Extracurricular activities
ELAM offers extensive extracurricular activities in all key subject areas.

“In a number of ways the team at LEAP is shaping the life chances of their pupils and their community” – Challenge Partners, Dec 2017

School organisation

Any parent who is considering LEAP, as an appropriate school to meet the needs of their child must discuss this with their child’s current school, in the first instance. Visits to the school are welcome.

We achieve our vision statement – securing futures – by:
- Accurately assessing learning abilities
- Identifying an individual learning pathway for each student
- Securing re-integration, back into mainstream, when possible
- Ensuring all pupils make expected or better progress in their chosen pathway across all subjects
- Securing a post-16 placement for all students

Who attends LEAP?

Students who:
- Would benefit from smaller class sizes and higher teacher student ratios.
- Are awaiting a place in a mainstream school.
- Have not been able to follow a traditional secondary curriculum and need to undertake this as a pathway to further education or training.
- Have been out of education for a period of time.
- Are not able to access the curriculum due to behaviour, illness, special educational needs and disabilities, personal circumstances etc.
- Have very poor attendance due to medical or physical conditions.
- Positive and respectful relationships.
- High-quality teaching.
- Comprehensive information, support, advice and guidance.

Accommodation

LEAP currently operates across four main sites, all located within Tower Hamlets, around 10 minutes by car and 20 minutes walking from one another.

Our Key Stage 4 centre on Tollet Street – a modern, three-storey, purpose-built facility – is our biggest centre. It has 12 classrooms, smaller teaching rooms/offices, a large assembly/dining hall and a full-sized sports hall.

Our Key Stage 3 centre on Stafford Road is a three-storey Victorian building. It houses six classrooms and a small number of offices/meeting rooms. Our vocational centre is on Henriques Street.

Key Stage 4 - GCSE pathway

All Key Stage 4 students have Harpley, our biggest centre, as their base. Whichever pathway a particular student may be following, it will always include maths, English and access to our options
and enrichment. For students on a reintegration pathway, options available will be mainly GCSE-based, whereas students on long-stay also have the option of following vocational courses, delivered at our vocational centre.

**Key Stage 4 - vocational pathway**
Students will learn through practical experiences and quality work experience. At Tommy Flowers Vocational Centre we offer:
- construction
- hair and beauty
- hospitality
- cycle maintenance.

**Key Stage 3**
The vast majority of Key Stage 3 students follow our Reintegration Programme based at our Third Base Centre. The reintegration curriculum is designed to cover all of the competencies required for a successful school career – reflecting the issues raised by schools, when referring students to us.

The curriculum follows a two-week cycle, with students working on a themed project. Work on literacy and numeracy skills is built into the activities for every day. Opportunities are also built in for students to achieve nationally recognised accreditation.

The Royal London Hospital School has been part of LEAP since 2001. It provides a quality learning experience and environment for all school age children admitted.

---

**Pastoral Care**
Our staff are committed to supporting young people in engaging with learning, making progress and achieving. We value every student as being unique and our values promote self-reflection, individual social and emotional development and the acquisition of new skills and knowledge. Staff are skilled not only in planning and delivering high quality learning programmes, but also motivating young people to engage with the activities and tasks they are presented with.

Unlike a mainstream school, our main success indicators are not examination and test results but are firmly anchored in what happens to a student after they leave us. This does not mean that examination success and the gaining of qualifications are not important to us. These things are very important and we invest in activities designed to ensure students achieve the best possible qualifications while on roll with us.

“Coming here has changed me a lot; it has made me realise a lot of things about myself. This place has been the best thing to happen to me.” – Student 2018

---

**Extracurricular activities**
Our activities range from self-defence to flower arranging and everything in between. The focus is to build student self-confidence, help students develop important life skills and broaden student horizons.

**Pupil Outcomes**
Many of our pupils attend the school for less than a year, some for just a few months. Despite this, staff and pupils are proud of our achievements.

Art, business studies, IT, additional science music and PE all achieved 100% pass rate and all above national and London average.

Please see the school website for further information: www.londoneastap.org.uk

Mulberry UTC opened in September 2017 in a brand new state-of-the-art building on Parnell Road in Bow. Part of the Mulberry Schools Trust, it was set up by Mulberry School for Girls with supporting industry partners Bank of America Merrill Lynch, Barts Health NHS Trust, the British Film Institute, Goldsmiths University of London and the National Theatre.

Mulberry UTC is a vibrant, diverse, inner city learning community, where each individual is valued, respected and talents can flourish. We offer a relatively new alternative to traditional schools and have a unique edge. We are career-focused specialists and our students gain practical, hands-on experience while they learn.

We offer GCSEs and A Levels, alongside technical qualifications, project-based learning and industry experience. We specialise in meeting the needs of young people whose talents lie in the practical application of their intelligence and creativity. We aim to enable all students to become confident, creative and critically aware young people with the capacity for leadership and the ability to excel.

We prepare young people for careers in the creative, health and digital technology industries, ensuring they are equipped with the academic, technical and creative skills and experience required for university study, apprenticeships and skilled employment.

We work closely with key employers so students benefit from on-the-job work placements and learning experiences they will not find anywhere else. What also sets Mulberry UTC apart from other schools, is our industry-standard facilities that cover all our specialisms.

### School organisation

Students may join Mulberry UTC either at the start of Year 10 or at the start of Year 12. When they join us, each young person chooses a specialist area of study so that they can work towards technical qualifications within their chosen pathway.

**The specialist pathways on offer in 2019-20 are:**

- health care
- health science
- business
- creative and digital media
- performing and production arts.

All students in Years 10 and 11 work towards GCSEs in English, maths and science and additional academic subjects including history, languages, sociology and citizenship. Students’ core curriculum also includes digital learning, religious studies, personal development, global citizenship and physical education.

Most sixth form students choose one or two A Levels to complement their specialist technical courses from a selection including (dependent on numbers): biology, chemistry, computer science, drama, English literature, film studies, maths, physics, politics, psychology and sociology.

Our Level 3 technical subjects are generally offered as Cambridge Technicals, which are worth the equivalent of 1.5, 2 or 3 A levels. These qualifications, designed through consultation with employers and higher education providers, offer opportunities to develop the skills, knowledge, and behaviours required to progress in both higher education and the workplace. They are ideal for students who aspire to professional careers within their chosen specialist fields.

We also offer Level 2 Health and Social Care, Performing Arts and Business Studies vocational qualifications, subject to numbers.

The distinctiveness of Mulberry UTC’s curriculum comes from our technical pathways and the learning that takes place outside the classroom. Students regularly spend time working on ‘challenge projects’, during which they learn in professional teams with industry partners on live projects that replicate the working world, providing important hands-on experience and theoretical underpinning.
Learning support
Mulberry UTC is an inclusive environment for students of all abilities. Our building is fully accessible for mobility-impaired students. We have a team of specialist staff who provide support for students with special educational needs and disabilities. We also work closely with a range of therapists, medical practitioners and outside agencies. Learning at Mulberry UTC incorporates a wide range of practical activities and creative approaches, to ensure each individual’s needs are met.

Pastoral care
At Mulberry UTC we have high expectations for every student. Our pastoral system reflects a strong commitment to supporting students’ personal development, achievements and progress. Our ethos is built upon care, kindness, respect, tolerance and celebration of diversity. All students are expected to follow our behaviour and uniform policy, with a strong emphasis placed on attendance, punctuality, attitude and participation. Our directors of progress and form tutors work closely with students, parents, teachers and outside agencies to ensure students receive the support, advice, guidance and encouragement they need.

Accommodation
Students at Mulberry UTC benefit from working within our new building, a stimulating and creative learning environment with custom-designed, professional-standard facilities. We have a 250-seat theatre modelled on the Dorfman at the National Theatre, studio theatre, TV and film studio with green screen, recording studio, radio production suite, animation studio, post-production and digital editing suites. In addition, there are dressing rooms, construction and costume workshops, a CAD suite, specialist science labs and specialist health facilities, including a simulated hospital ward.

Extracurricular activities
Mulberry UTC’s extended school day creates space for the development of broader horizons, self-confidence and new skills, including communication, negotiation and leadership. All students participate in employer-led challenge projects and present their work to parents at our termly exhibitions. Students complete work experience and industry or university placements relevant to their specialist courses. All students are encouraged to take part in independent study, extracurricular activities and to take up leadership opportunities such as participating in Model United Nations.

Admissions Process
Mulberry UTC operates its own admissions process, in line with Tower Hamlets’ fair access protocol. The timeline for admissions is published on the UTC website.
New City College - Tower Hamlets
(14-19) (formerly Tower Hamlets College)

The college’s mission is to create opportunities through inspiring teaching and learning, by developing students’ skills, knowledge, curiosity, resilience and employability.

Tower Hamlets College is part of New City College, a general further education institution with a turnover of approximately £67 million. It is based over two sites in Tower Hamlets, east London. The college was rated by Ofsted as a good provider with outstanding features. Our vision is to become an outstanding provider of education, training and skills by 2020.

The college aims to create opportunities for students to fulfil their potential, facilitating progression to employment, self-employment, higher-level study and improved economic prosperity.

On 1 August 2016, the college merged with Hackney Community College to form New City College. Redbridge joined the group on 1 April 2017 and Epping Forest College joined on 1 August 2018 to form the second largest college in London, with campuses across the four boroughs. Each college will retain its local identity and campuses in each borough.

School organisation
• 14-16 new arrivals and New Horizons programme
• ESOL courses for 16-18 students
• GCSEs – maths, English, Italian and science
• 21+ A Level programmes
• 30+ vocational programmes in computing, business, motor vehicle and construction, applied science, health and social care, early years, sport, SEND and creative arts.

Learning support
There is a dedicated and large additional learning support team at the college providing:
• in-class support
• specialist teaching support
• assistive technology
• qualified and specialist dyslexia support staff
• 1-2-1 study support
• independent study areas – the learning zone.

Accommodation
• 14-16 Arbour Square
• Attlee Academy – A Level centre at Arbour Square has been recently opened.

Pastoral care
The college has a well-developed tutorial programme, which includes target setting and parent evenings. There is also a well-established disciplinary policy.

Extracurricular activities
There are a wide range of enrichment activities, including a preparation for university and employment programme and an Oxford and Cambridge universities preparation programme. The A level programme has its own enrichment award scheme with a focus on employability and university progression.

The college has its own football team and runs a series of activities from the Poplar campus.

New City College - Tower Hamlets (14-19) (formerly Tower Hamlets College)

Apply online at www.towerhamlets.gov.uk/schooladmissions
South Quay College was founded in 2012 by an east London charity, City Gateway Trust. We aim to deliver programmes that enable positive sustained outcomes in education and employment, and to have a transformative impact on individuals and the wider community.

We are passionate about developing the next generation of enterprising citizens. Each student’s pathway will be made up of three strands:

- **Qualifications that help students to acquire skills for employment** – this includes English and maths for any young people who have not already achieved a 4 at GCSE level.
- **1:1 coaching and support** – every student will receive support during and after their time at SQC.
- **Careers Education, Active Citizenship and Enterprise (ACE)** – our in-house programme provides learners with opportunities to gain experience and further develop their transferable skills.

### School organisation

#### Key Stage 4 Alternative Provision
Young people are usually referred to our Key Stage 4 provision by their current school or by the local authority. We provide a highly supportive environment for young people who would benefit from an alternative to mainstream education, with a strong focus on personal development.

#### Curriculum – vocational subjects
Most students will follow a L1 / L2 BTEC qualification, or equivalent, in one of the following:
- Creative Arts
- Construction
- Hair and Beauty
- Sport and Fitness.

#### Curriculum – core subjects
- English (GCSE and/or functional skills)
- Maths (GCSE and/or functional skills)

#### Additional core subjects
- Science
- Humanities
- Art
- PSHE
- PE (not accredited)
- ICT.

### Careers Education, Active Citizenship and Enterprise
Each week, Key Stage 4 students will have opportunities to undertake a range of enrichment projects that will help them to develop transferable skills for employment, as well as an awareness of the wider community and their role in society. Through project-based learning and regular interaction with visitors and partner organisations, we aim to expose young people to a wide range of important themes and issues, from British values and employability, to mindfulness and volunteering.

#### Key Stage 5 offer
We offer a selection of year-long vocational pathways that include English and maths. Entry points are dependent on prior experience and qualifications.

All students are also offered 1:1 support and coaching, as well as Careers Education, Active Citizenship and Enterprise activities.

For further details about Key Stage 5, please visit our website: [www.southquaycollege.org.uk](http://www.southquaycollege.org.uk)
Learning support
South Quay College's model is a graduated approach for learners with a wide range of needs, taking a holistic view that focuses equally on social, emotional, mental health and educational development. We have many years’ experience working with learners who have additional needs and maintain a high ratio of staff to learners. Our inclusion team provides targeted support to students with EHCPs and students with higher needs, according to the special educational needs and disability (SEND) code of practice. We work in partnership with the local authority and a wide range of external agencies to ensure that students receive the appropriate support.

We undertake an initial and diagnostic assessment of all students to determine the most appropriate pathway.

Accommodation
SQC has a number of dedicated vocational training spaces. These include:
• beauty salon
• construction workroom
• gym
• media room and recording studio
• sports hall
• vocational studies training room.

Pastoral care
Each student is assigned a student journey lead with whom they meet at least every fortnight to review their progress. Our staff work closely with students, parents, carers and external professionals to ensure we help students to overcome any barriers or challenging circumstances they may face.

Staff are often in touch with young people beyond the duration of their course to ensure that they have a positive progression plan.

Additional support
All Key Stage 4 and some Key Stage 5 classes have additional in-class support.

We work with a range of partners in the community to ensure that our students can access additional support such as counselling and substance misuse advisors.

Extracurricular activities
Our programmes regularly include industry specific trips and visiting speakers to give young people a real-life insight into the world of work. Coaching also helps young people to identify their strengths and interests, and encourages them to pursue these in their own time.

Apply online at www.towerhamlets.gov.uk/schooladmissions
Registration

Go to www.eadmissions.org.uk
This will take you to the welcome page – click on create a new account – see figure 1.

If you have previously applied using the online system you will be able to log in without the need for registration.

Then enter your details and click next – see figure 2.

You will then need to create a password and click next (please note the password for future reference) – see figure 3.

You will receive confirmation that your USO account has been set up and will be sent a reminder of your username – see figure 4.
Login
You can now log in with email or username and will be directed to the following page – see figure 5.

You will be required to confirm your details and tick that these details are correct. You will need to tick to agree the privacy statement. You will need to validate your email address.

Start an application
You should now have reached the my school admissions page – see figure 6. This is your homepage. From here you can make a new application, edit an existing application, view the details of any application already submitted and view the outcome of your application once it is available.

Click on ‘Start a new application for new child that is not listed below’ to start your application.

Stage 1 – child’s details
Fill in your child’s details and then click Next – see figure 7.
Stage 2 – school selection

Here you can apply for up to six schools, in Tower Hamlets and/or other boroughs. You should select the schools in order of preference, with the first selected school being your first preference and so on.

You can add a school in one of three ways:

1. By selecting the borough of the school using the dropdown list and then selecting the school.
2. By clicking on the ‘Add a school using a map’ button and selecting your school from its location on the map.
3. By searching for the school by using keywords.

Click on Next – see figure 8.

For each school selected you will be asked to provide the following information:

1. Sibling information – you should click on the relevant box and fill in the details if your child has a brother or sister already at the school.
2. Exceptional medical or social reasons – you should tick the relevant box if there are medical or social reasons for your child to attend a particular school. You will be required to provide documentary evidence to support this.
3. Additional reasons – this is for you to give additional reasons for wanting a particular school.

When you have finished selecting your schools, click on ‘Next’ – see figure 9.
Child’s details continued

Please enter your child’s reading and maths scores from the year 5 NFER tests.

Click on the relevant boxes to answer questions about your child.

Click on “Next” – see figure 10.

Stage 3 – submitting your application

When you have entered all the above information, you will be prompted to check that the information is accurate and then asked to submit application. Even if you submit it straight away, you can still make changes later, right up until the closing date – see figure 11.

Stage 4 – confirmation

Once you have submitted an application, you will see the confirmation page, with a reference number. Please keep your reference number for any enquiries. You will also be sent an email to confirm that your application has been submitted.

It is advisable to print a copy of your application for your information.

Note: The last submitted application will be processed as your final application. If you have applied online, please do not fill out a paper application.

Thank you for applying online.
